ENGLISH STRIKERS RETURN

London, Oct. 6.—With the same astonishing suddenness which marked the beginning of their strike nine days ago, the railway men returned to work today.

Industrial England breathes free again after a week's effort to tie up industry including miners and transport workers paralyzing the country.

The truce which was negotiated by Premier Lloyd George and a group of conservative labor leaders late Sunday provides that there shall be a final settlement by October 21 and there shall be no reduction of railway men's wages before Sept. 30, 1920.

The men receive the guarantee from the government that no railway workers are to receive less than \$12.50 weekly instead of the pre-war wage, so long as the cost of living is not less than 110 per cent above the pre-war level.

Transportation is slowly becoming normal, but it will require several days to untangle all of the traffic dislocations.

James Kibbler, chairman of the Glasgow strike committee, characterized the outcome as a moral victory for the men.

Business losses from the strike are put at \$250,000,000.

Approximately 600,000 railway workers were on strike. But in addition thousands of others employed in coal mines and industrial plants had been thrown into idleness by the tie-up.

NO KING FOR HER. WANTS AMERICAN

New York, Oct. 6.—"Jack" (listed in the Almanac De Gotha as King Alexander of Greece) is good company and a fine young man, but when Miss Josephine Marie Kelly of Chicago, married, the bridegroom is going to be an American.

Miss Kelly, a Red Cross worker, who arrived on the liner President Wilson, thus set at rest the cable rumor that she had won the heart of the young ruler of the Hellenes. Miss Kelly admitted that she was a friend of "Jack's" as she called the king, but that was as far as it went.

RABID RABBI

New York, Oct. 6.—Rabbi Stephen S. Wise of the Free Synagogue, who bitterly attacked Elbert H. Gary, and other associates in the United States Steel Corporation as "among the most prolific breeders of Bolshevism," during the course of two sermons on the steel strike on Sunday, declared today that if necessary, he is ready to go to Pittsburgh and deliver the same address.

MRS. WILLIAM B. LEEDS MAY RETURN TO AMERICA.

Mrs. William B. Leeds

Mrs. William B. Leeds, widow of W. B. Leeds, known as the "tinplate king," and who came in for all of his millions, will return to the United States shortly, according to a report from London. Mrs. Leeds has been abroad so long that she is practically listed among American expatriates. Rumors of Mrs. Leeds' engagement to prominent European nobles have reached this country at different times, but nothing ever came of them. Her magnificent villa at Newport has been closed for several years, much to the disappointment of the colonists there, as it is one of the handsomest and most extensive abodes in the famous social colony.

G. M. PETERS IS DEAD AT HOME IN CINCINNATI

Gershom Moore Peters, former president of The King Powder Company, and founder of The Peters Cartridge Company, died at 4 o'clock Sunday afternoon at his home on Luray avenue, Walnut Hills, Cincinnati. Death was due to paralysis by which he was stricken last Monday.

While not in robust health for some time, Mr. Peters spent the summer at the home of his daughter, Mrs. Otto Huffman at Mt. Kisco, N. Y., and had returned home a few weeks ago.

A native of Ohio, Mr. Peters was educated for the Baptist ministry and ordained, for several years following the calling of a clergyman in New York State. While he was in the ministry he married Miss Mary King daughter of the late J. W. King, president of The King Powder Company of this city. After a few years, he came to Xenia to assist in the management of The King Powder Company of which his father-in-law was head. He spent several years in this city, looking after the offices of the company which were located here, and went from this city to Cincinnati, about 25 years ago. He founded The Peters Cartridge Company, which has become one of the largest and wealthiest concerns of its kind in the world.

Surviving him are his widow and two children, Mrs. Otto Huffman and Mrs. Charlton Wallace, both of New York.

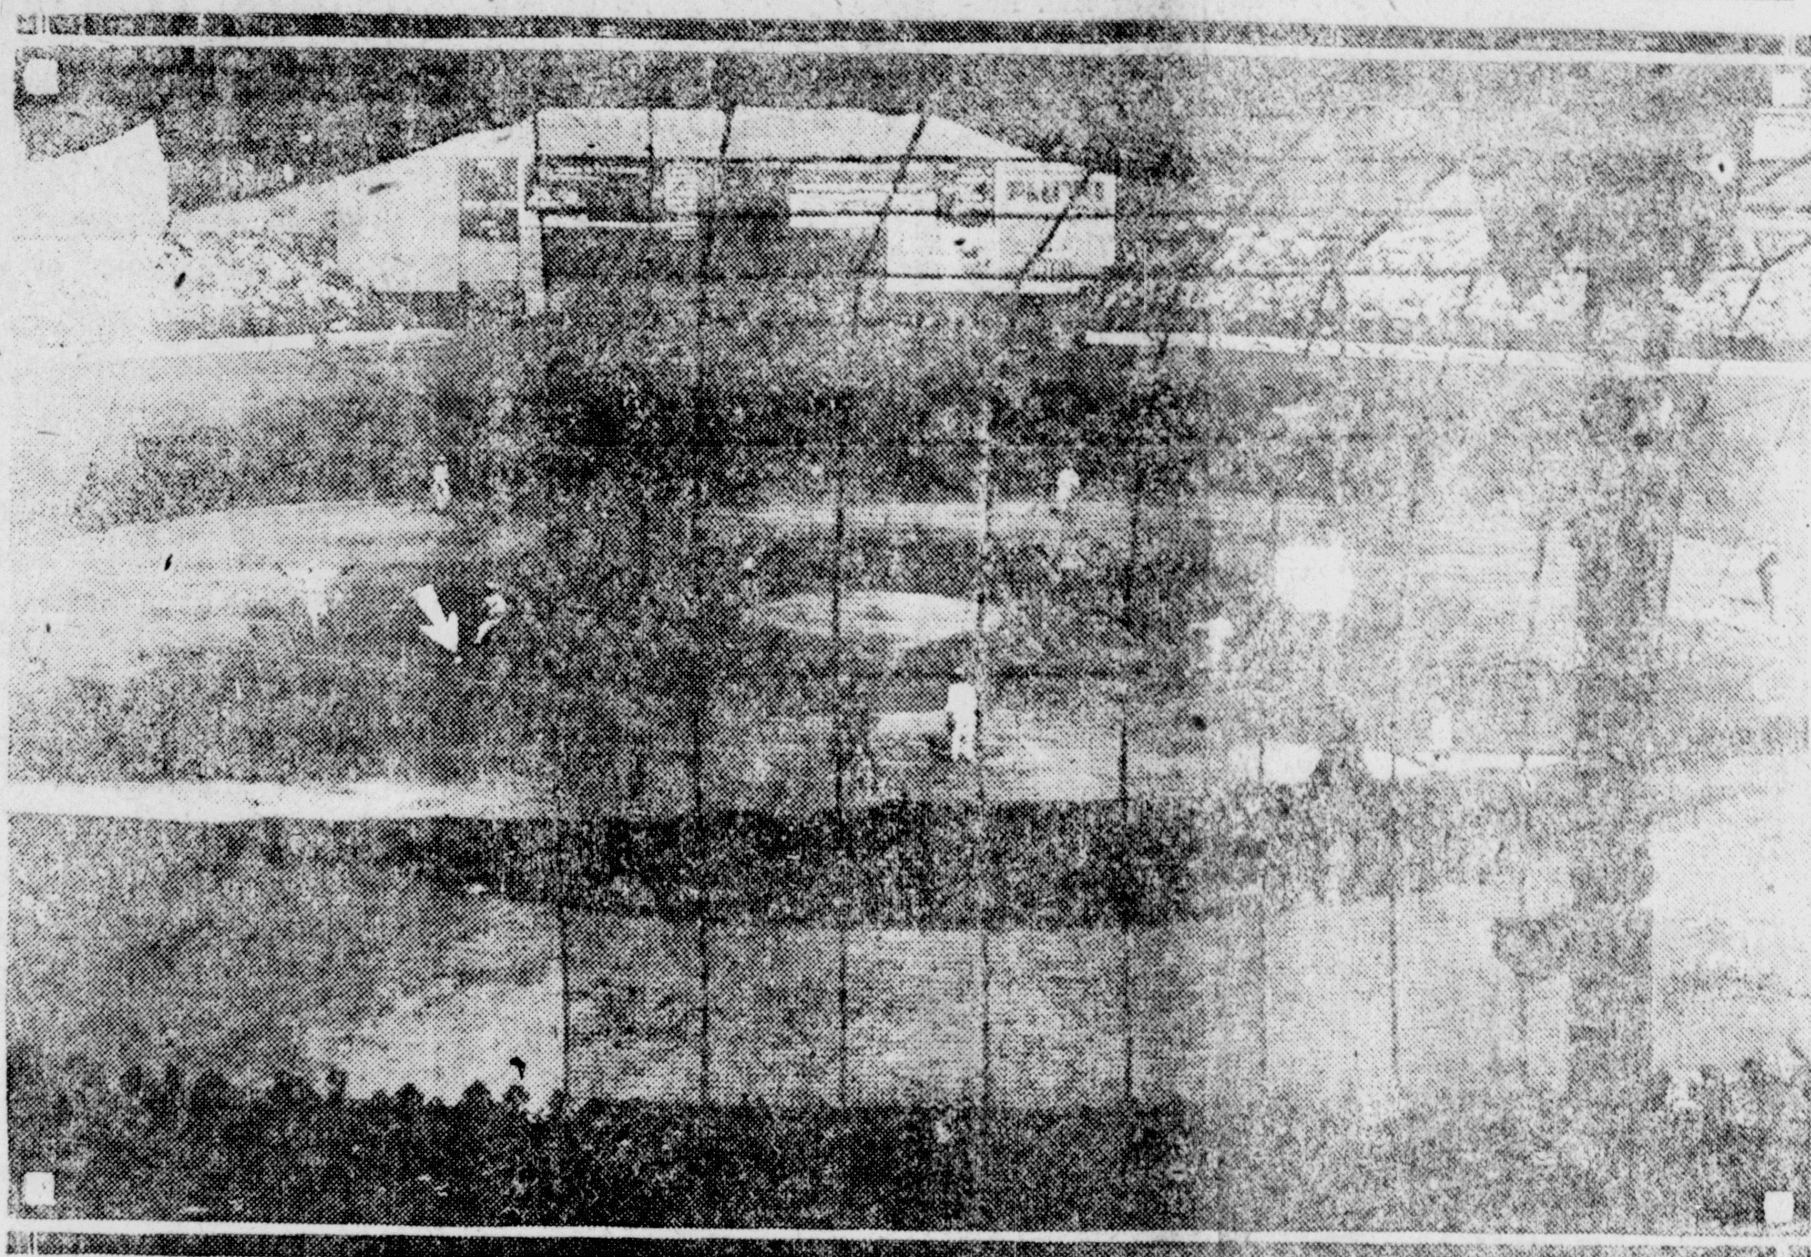

Funeral services will be held at the late home Tuesday at 3 o'clock. The interment will take place in the King family plot at Woodland cemetery this city. Wednesday forenoon, the body arriving in Xenia at 10:15 o'clock.

TO AMERICANIZE ALL INDUSTRIAL WORKERS IN U. S.

Washington, Oct. 6.—Immediate steps for the Americanization of all industrial workers will be one of the recommendations of the senate education and labor committee as the result of its investigation of the steel strike.

Senator Kenyon, of Iowa, chairman of the investigation committee was today planning to urge that congress take immediate steps to provide for a plan for Americanization. There is already a bill before the committee which provides for federal action to further Americanization and Senator Kenyon hoped that he would be able to speed this measure up and secure action upon it soon after the peace treaty is disposed of.

Buck Weaver, Sox third baseman is running in to field the ball also. Kerr, a second after the photo was snapped, slipped

SHANTUNG CHIEF ISSUE NOW IN SENATE PEACE TREATY ARGUMENT

Washington, Oct. 6.—Shantung will be the chief issue in the peace treaty in the senate this week. The amendment is to restore to China the German concessions in the Chinese province which were seized by Japan during the war probably will be voted on either Wednesday or Thursday.

Owing to the continued opposition of the so-called "mild reservationists" on the Republican side to textual changes in the treaty even some of the amendments supporters concede that it is likely to be defeated just as were the Ball amendments last week.

Sensors Borah, of Idaho, and Norris of Nebraska, are among the Republican senators who promise fiery speeches in criticism of the amendment.

RACE RIOT

Helena, Ark., Oct. 6.—The situation throughout Phillips county where race riots have continued intermittently for the past four days, was reported "quiet" by military authorities today.

Small squads of soldiers and volunteer citizens organizations continue to search the district for rioters and while several arrests were made during Sunday and last night no clashes were reported.

According to information in the hands of the "committee of seven," appointed by civil authorities to investigate the negro uprising which resulted in the death of 24 persons during the past four days, the negroes had planned a general uprising today.

F. M. DEEDS HAS NARROW ESCAPE FROM DEATH

Youngstown, Oct. 4.—F. M. Deeds piloting a Curtiss aeroplane and Leonard Hayes, a passenger had a narrow escape from death late this morning when the plane in which they were flying crashed to earth at the Poland country club. Deeds sustained a broken nose and Hayes a fractured leg. It may develop that they have suffered internal injuries.

The plane had just "hopped off" for a flight to Erie, Pa., when the engine stalled at a height of about 250 feet, the machine going into a nose spin. The men were pinned beneath the wreckage, but were quickly extricated and rushed to the Youngstown hospital.

EVERYBODY'S DO' IT.

Washington, Oct. 6.—The whole country is prescribing for the president. Every White House mail for the past few days has been loaded, not only with prescriptions from physicians, but with nostrums which have cured the senders.

HELL OF FIRE IS THING OF PAST

Columbus, O., Oct. 6.—Speaking on "What has become of hell?" Dr. E. L. Rexford, pastor of All Souls church said:

"The traditional hell of fire in some other world has gone out of existence."

Dr. Rexford traced the beliefs in different sorts of hells from beginning of time on down and said it is his opinion that the best belief is that of today that "remorse of conscience instead of physical burnings will constitute hell."

Dr. C. R. Havighurst, at First Methodist Church declared that from personal contact, he knows that German today is in the hands of a theists.

WAR ON RATS

London, Oct. 6.—Amidst the upheaval of industrial unrest and the political agitations over peace problems, the British government has found time to declare war on rats. The board of trade has designated October 20-27 as "national rat week" when the people are urged to undertake an offensive campaign to exterminate the rodents.

AMERICAN STEAMER CALLS FOR HELP

Boston, Oct. 6.—A radio call for help sent out by the American steamer Lake Cradett, Portland, Maine, for Fowey, England, has been received at the navy yard. The vessel is in peril in mid-Atlantic, 300 miles from New Foundland, and is encountering heavy seas with only three days coal supply in her bunkers. The coast guard cutter Androsgerogin today is crossing the vicinity of the Lake Cradett and probably will reach her in time.

COMMITTEE WILL MOVE TO PITTSBURG

Washington, Oct. 6.—The senate committee investigating the steel strike has voted definitely to carry its investigation to the Pittsburgh district. Senator Kenyon, of Iowa, chairman of the committee announced today. Senator Kenyon stated today that as yet he has been unable to determine when the committee will go as the entire matter hinges upon the treaty situation in the senate.

SPRING VALLEY COMPANY IS SOLD

The Spring Valley Mercantile Co., has disposed of its business to W. H. Eikenberry, of Marion, Ind., who will take personal charge of the extensive interests of the firm.

Mr. Eikenberry becomes owner of the hardware and implement, lumber, coal, cement and lime business. The mercantile company retains ownership of The Spring Valley Flouring Mills, which it has been operating several years.

Members of the company which made the sale are T. M. Scarff, E. M. Spitzer, John Spitzer and T. F. Weller.

John E. Clark of Marion, is taking charge of the business for Mr. Eikenberry until he personally assumes management of the industry. T. F. Weller will continue with the firm for a time.

ELIMINATED.

Cleveland, Oct. 6.—Because the "second mortgage broker" adds from \$500 to \$600 to the cost of an \$8,000 house, and is a "business" factor in building operations, Charles Smith, business agent of the Cleveland Building Trades Council, announced today that all workmen have been withdrawn from jobs in which these brokers have figured. According to Smith the brokers referred to are a by-product of the war and operate by bringing prospective builders in touch with money lenders taking a commission for the service. Legitimate second mortgage companies have also declared war on the "loan middleman," declaring them as unnecessary factor.

STEEL PLANTS SLOWLY RESUMING OPERATIONS, AMERICANS RETURNING

Pittsburgh, Oct. 6.—Steel plants in the Pittsburgh district that have been closed since the beginning of the nation wide strike two weeks ago threw open their gates today and attempted to resume operations. Early reports from different sections said that workmen returned in large numbers.

One of the three great blast furnaces of the United States Corporation at Clairton which have been "down" was blown in today. Four large mills in Donora and Monessen, which had been closed tight by the strike, started this morning. Officials expected that at least 60 per cent of their employees would return.

The Carnegie Steel Company reported that the largest force since the beginning of the strike reported for duty on the night shift at its different plants in the district last night. "Every American reported for work today," an official of one of the four plants to start said today.

The strikers committee was marking time today. Activity at headquarters apparently was restrained by the presence in Washington of all the leaders who will confer tonight with the executive committee of the American Federation of Labor over ways and means of conducting the strike.

EMPLOYEE AT THE O. S. & S. O. HOME IS FOUND DEAD

Believed to have been dead since Saturday evening, the body of Albert C. Gundlach, 62 years old, assistant painter at the O. S. and S. O. Home, was found at the rear of the chapel on the Home grounds at 10:30 Sunday morning. Dr. Leroy Haines, who viewed the body at the office of Undertaker R. M. Neeld, gave it as his opinion that cerebral hemorrhage was the cause of death.

Mr. Gundlach had been complaining for several days of not feeling well. He went off duty Saturday noon for the weekly half holiday, and came to this city. He was not seen on the Home grounds after that time.

The man came to this city from North Lewisburg, Champaign county last April, and had been employed at the Home ever since. He was quiet and industrious. So far as is known he has no relatives. He was a native of New York, but spent much of his life roving over the country, according to the story he had told people who were associated with him at the Home.

A brief funeral service will be held Tuesday at 2 o'clock at the Neeld undertaking parlors. Burial in Woodland cemetery.

FAMOUS PRISON WARDEN DEAD

Glenn Falls, N. Y., Oct. 6.—Wm. J. Homer, warden of Great Meadow prison at Comstock, is dead after being stricken Saturday night just after delivering an address to the inmates of the prison, assembled to celebrate Yom Kippur, the Jewish holiday. Warden Homer's method of dealing with prisoners made him famous. Convicts were put upon their honor, wards were unarmored. Humane treatment was the rule. Chain gangs were abolished. Few prisoners ever tried to escape, although they were allowed to work on the prison farm where there was opportunity to take "French leave" if they chose.

His home was in Elmira, N. Y., where he was born fifty years ago. Before Gov. Dix appointed him head of Great Meadow in 1911 he was a broker and railroad transportation employee. He leaves a wife and married daughter.

PRICES OF BARBER WORK HAVE STARTED SOARING

Prices of practically all barber work went up Monday morning as the result of shop owners in Xenia complying with the demands filed by barbers here last week.

Starting Monday morning, shaves went from 15 to 20 cents, hair cuts from 35 to 40 cents, shampoos from 25 to 35 cents, massages from 25 to 35 cents and hair shingles from 25 to 35 cents. Tonics remain stationary at 25 cents.

The other demand of the barbers for shorter hours also went into effect, and shops will from now on open at 7:30 o'clock in the morning instead of 7 and close at 7 o'clock in the evening instead of 8. This will be the schedule through the week and Saturdays the shops will open at 7:30 in the morning and close at ten in the evening instead of 11.

The other demand of the barbers for a raise in commissions from 35 per cent to 70 per cent, was compromised by the barbers and the shop owners. The scale was raised from \$30 to \$40, and the barbers will hereafter receive a commission of 66 2/3 per cent over that amount instead of 65 per cent as in the past.

The barbers are satisfied with the action of the shop owners in complying with their demands so far.

PRESIDENT IS HOLDING HIS OWN

Washington, Oct. 6.—After a satisfactory night, President Wilson today continued to hold the improvement that was noted in his condition yesterday.

This was the gist of the bulletin on the president's condition that was issued at the White House at 11:30 by Read Admiral Grayson, his personal physician, Dr. Ruffin of Washington, Mrs. Wilson's family physician and Rear Admiral E. R. Stitt, head of the naval medical college.

The president, it was learned at the White House today, has fretted considerably over the industrial conference which opened this afternoon. When the call for the conference was issued the president had expected to open it himself and through his personal efforts break down a great deal of the distrust with which leaders of capital and labor are viewing each other.

Another conference of the physicians attending the president was scheduled for today. Dr. Grayson, Dr. Ruffin and Rear Admiral Stitt, U. S. N., will attend.

ITALY MAY RATIFY PEACE TREATY

Paris, Oct. 6.—King Victor Emmanuel of Italy, may ratify the peace treaty by royal decree today, says Homme Libre, Premier Clemenceau's newspaper. The Italian parliament is not in session.

This newspaper believes that ratification by three powers, necessary to make the treaty effective will have been accomplished by October 12. Great Britain has already ratified the treaty and the Anglo-French-American Pact. The French senate and President Poincare probably will give their approval this week while immediate action by the Italian king is expected.

GRIEVING FRENCH MADAME CARES FOR QUENTIN'S GRAVE.

Bleak elements and an aged French woman guard one of America's sleeping martyrs.

Madame Marchand, a wrinkled-faced, toothless old French woman, has taken it upon herself to tend the grave of Lieutenant Quentin Roosevelt, which lies at the edge of the war-battered village of Chamery, France, according to a report received here. Two or three times a week the aged woman hobbles from her home, a quarter of a mile away, and places a handful of flowers against the wooden cross at the head of the grave. Two of her own sons have been killed in the war. To the grave of one who fell at Chateau-Thierry she makes a pilgrimage every few weeks. Her other boy fell in the fighting on the Somme and lies in an unmarked grave. So the old lady has vowed to care for the grave of this American boy who died so far from home.

CHAPTER LXXXV.

Leola's Temperamental Letters.
As I fingered over the package I slipped out the thin envelopes and laid aside the fat ones which promised more exciting reading. Then I hurriedly ran through those that promised little. Invitations, regrets, openings of fashionable milliners and dressmakers—all the inconsequential things that go to make up the day's mail of a woman socially prominent. These finished I compared the dates in the envelopes of the thick and promising letters and selecting that most remote, I drew out the closely written pages. After a few tense moments I read:
"Dearest Everett: It was heavenly to be with you last evening. Tonight I am alone and the thought of you keeps me happy. My soul dear Everett has one great faculty—that of loving you. And all mine is yours. Often you may doubt it, this wilful nature of mine often will not be kept within bounds. But that is only casual. It is the other my love for you, that counts. You swore you never had, never could love another. I should die did you ever another while I was living; and even heaven would be hell if after I was gone you gave what belongs to me through eternity—your love.
"I have asked myself a hundred times what I have done to merit such supreme happiness? If you only knew, Dear Heart, how I pray to become the angelic being you think me, am so far from perfect, Dear. My temperament, my pride will, I fear, give you many a sad hour—me, many a desperate one. But if love can make one over, then shall I be a different Leola—for your sake.
"Thank you for the roses. I did not put them in water and so preserve them. I heard them close my heart until they were all wilted and roting.
"I shall see you this evening. Until then know that I am thinking only to you, my Love—Leola."
I read the letter through to the end, an icy hand at my throat, my heart aching. So even before they were married, Leola had known she possessed all that Everett had to give of himself, of love. How she must have loved him, to write like that! It seemed almost sacrilege to me. She had said that "even heaven would be hell," if he loved another, gave anyone the love that belonged to her.
What a loving passionate letter it was. Yet as I re-read it, I realized that she was conscious of her own weakness. She had feared that her pride, her peculiar temperament would give them unhappiness—as I knew it had from what I had learned of their life together.
Who but one with just such a nature would hold roses until they drooped and faded instead of putting them in water to preserve them? I knew I never would even think of such a thing. Yet in a way, I sensed how such a confession would appear to a man who was in love.
"Why am I such a practical creature?" I asked as I dashed the tears from my eyes—angry tears that I could not make myself—more like Leola. Then half laughing, half crying, I added: "I should have put them in water, cut the stems, and probably on the second day have put them in the vase to preserve them as long as I could."
After a bit I drew out the next letter:
"My Own: I am sorry I was so naughty. I longed even while being disagreeable to throw my arms about your neck and tell you how I loved you and ask you to forgive me. But this terrible pride, this contrary nature, would not allow me. I feel like saying what Prosper Merimee did in his 'Letters to an Unknown'—you recall he said: 'You will never know all the good or all the evil here is in me. I have spent my life being praised for qualities which I have not and being calumniated for faults which are not mine. It has always been so ever since I was a little girl in pig-tails and pinafores. I am afraid it always will be, although for your sake I shall strive desperately to overcome the faults.'
"After you left me, Dear, I gathered all the roses from where I had so spitefully thrown them, and gave to them the kisses I denied you. How I love them, those red, red roses you and I bring me. Do Dear, come early tomorrow. I shall be unhappy until you take me in your arms and tell me that you forgive me and love me not as much but more than before—Your naught Leola."
"I never can be like her, never, ever!" I exclaimed vehemently as I finished this second letter. "There's no use to try!" And because I could not be like the first wife of whom I was so jealous I wept bitterly. Then I laid the letters away until another time. I could read no more of them.
Tomorrow—Life's Contradictions.

HEINIE GROH

Henry Knight Groh was born in Rochester, N. Y., on September 15, 1889. Began playing ball with Oshkosh in 1908. Remained there for three years. In 1911 joined Decatur club, but was sold in July to New York Nationals, who farmed him to Buffalo, where he played in 1911. In 1913 he was secured by Manager Joe Tinker of the Reds in a trade of Groh, Ames and Devere for Arthur Fromme and he has been with the Reds ever since.

ENTIRE FAMILY OF FIVE ARE KILLED AT GRADE CROSSING

Dayton, Oct. 5.—A family of five was wiped out at the Ohio Electric crossing of the Valley pike, just west of Donnellsville, at 8:45 o'clock yesterday morning, when a Springfield-bound traction car from Dayton crashed into an automobile, bearing an Illinois license number 371,575.
As identified from a card in the man's pocket the victims are H.C. Cree, rural route 4, Wyoming, Ill., his wife and three children.
The man and woman were about 45 years of age and the children about 3, 5 and 7.
The automobile was demolished and in the wreckage was the body of a dog, evidently the pet of the children. Bits of surplus clothing, food and a bag of apples and potatoes, together with cooking utensils scattered in the wreckage, indicated the family had been camping along the route. A Chambersburg, Pa., pennant was on the car.
Just a few minutes before Cree drove across the Ohio Electric tracks which cross the pike diagonally, a trolley car had passed on its way west from Springfield to Dayton. The trolley car which ran into his automobile was running at a high rate of speed, it is said, and struck the automobile practically in the center, their being nothing left of the machine but broken parts, the

tires being torn from the wheels, and one of them thrown some distance into a field.

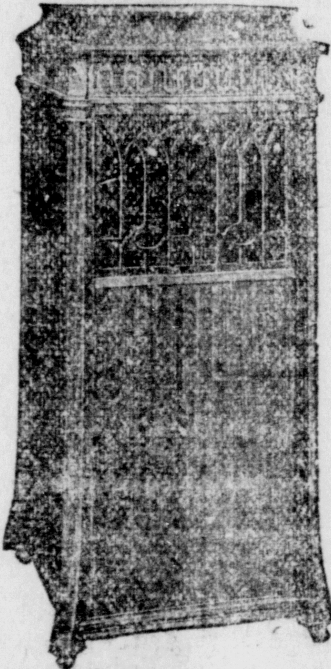

FAIRFIELD

The convention of the 51st District of Rebekah Lodges convened in Fairfield September 30th, 20 from the Xenia lodge motored over and were in attendance at the convention. Mrs. Russell of the state assembly conducted the school of instruction. Addresses were given by Mrs. Russell, Mrs. Conover, and Emma W. Bell, State Officers, and Mr. and Mrs. McDonald of the I. O. O. Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F.M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.
These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 10c and 25c.

Constipation

THERE IS NOTHING equal to Chamberlain's Tablets for constipation. When the proper dose is taken their action is so agreeable and so natural that you do not realize that it is the effect of a medicine. These tablets possess tonic properties that aid in establishing a natural and regular action of the bowels. Chamberlain's Tablets have cured many cases of chronic constipation.

XENIA HIGH LOSES TO WASHINGTON C. H.

It was a mighty busy afternoon at the football yard Saturday, when some twenty-two athletes collided in a super-exhibition of the grand old game, Washington High School's eleven, topping the score over Xenia High School 13 to 6.

Some fifty minutes of slashing, peave-racking, heart rending football, with Coach Fairer's charges fighting an upgrade battle from the sound of the whistle, made of the fracas the most exciting and interesting from the point of the sidelines that has graced the dust-laden turf of old Roberts' oblong for so this many a day.

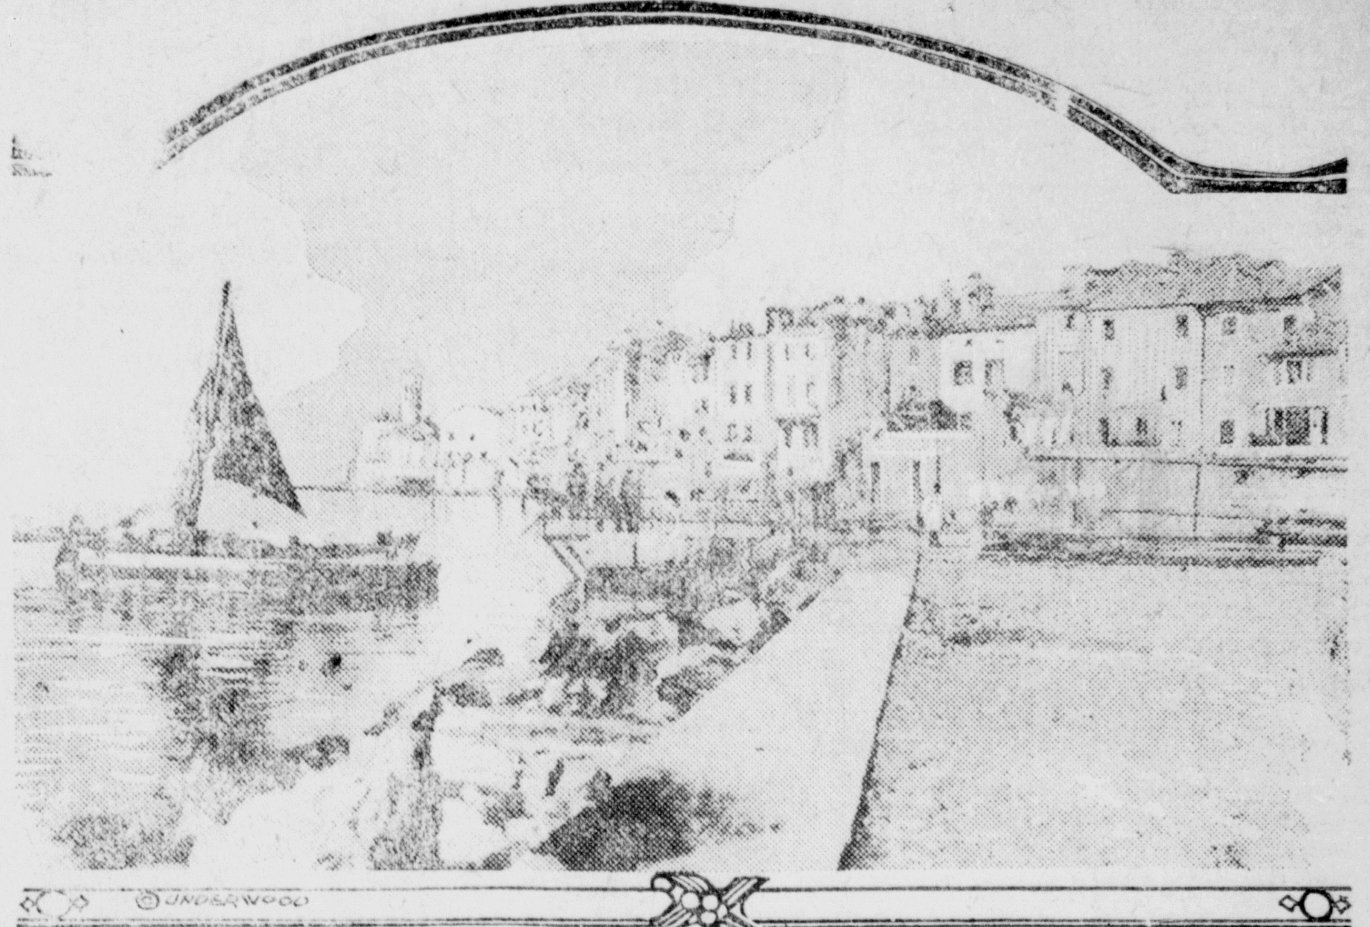

Playing a game and scrappy article of the pigskin sport, yet Xenia High School's still-unexperienced squad was out-massed by the heavier and more aggressive following of Coach Moorehead from the Fayette county capitol and only the bitterest kind of defensive play, kept the score from going higher.

With a number of last year's men in the line-up, Washington's organization of tired warriors gained more ground than the locals and the remarkable punting of Bales, of Xenia, was a big factor in keeping the pellet out of dangerous territory. The first quarter was a see-saw, with the visitors having a little the best of the argument, but with the quarter ending no score.

When Washington intercepted a blue and white pass in the second quarter, the tide of battle turned. After an irresistible march to the goal line on straight bucks, Rogers, veteran quarterback of the Washington outfit toted the leather over for a touchdown. Weaver kicked goal.

The half ended with the score standing thus, and some several hundred sideline rooters howling themselves hoarse for a reversal of attack on the part of the locals. It was with the intention of "opening up" that Fairer's favorites took the fields at the start of the second half. When Walker Taylor recovered one of Bales' punts on Xenia's 45 yard line, the locals began the offensive that resulted in their only score. Knee was on the receiving end of a pass that netted 15 yards and LeSourd dived for ten more. After losing the ball on a fumble, Taylor

of the Year

VIRTUOUS MEN

Starring

E. K. LINCOLN

Supported by Such Notables as

Grace Darling, Clara Joel,
Robert Cummings, Irving
Brooks and Other Notables

"Virtuous Men" was directed personally by Ralph Ince, responsible for the biggest screen successes of the past few years.

It stars E. K. Lincoln, one of the most popular film favorites of the motion picture public.

The production was eleven months in the making, cost over \$150,000 to produce.

"Virtuous Men" abounds in spectacular scenes, magnificent sets, tremendous climaxes and real thrills.

Among the outstanding features which make "Virtuous Men" the great melodrama of the year are scenes in which 10,000 supernumeraries actually appear, a tremendous forest fire, a Society Ball, of gorgeousness and beauty, the most realistic and terrific hand to hand fight ever witnessed.

The ball room scenes are the most pretentious and magnificent ever filmed. Beautiful women, exquisite gowns, rare jewels and massive settings make these scenes one of the finest spectacles ever seen on the screen.

Suspense, action, beauty and finely played drama—all these have their share in making "Virtuous Men" the great melodrama of the year

"A Home-made Loaf?"

That's what our customers call it!

Why?

Because it looks and tastes like the loaf that is made at home. We use just as much yeast in each loaf—the same good flour, milk and shortening.

The result is a loaf really digestible, thoroughly fermented and appetizing—one that satisfies and saves.

Famo Is a Medicine

Your Hair Needs it Daily

FAMO should be used as you use your tooth paste—every morning. You use FAMO to kill seborrhea, just as you cleanse your teeth to ward off pyorrhea.

One is just as persistent, just as deadly in its effects, as the other—pyorrhea killing the teeth and seborrhea destroying the hair.

The action of FAMO is medicinal because it is a medicine—a medicine for the scalp and hair.

To be sure, one application of FAMO does frequently—almost always, in fact—clear the head of the deadly seborrhea germ.

So does a good medicated tooth paste cleanse the mouth.

But, skip a single day with the tooth-brush, and what happens?

Germ begin again to work on your teeth.

The same process applies to the hair. With FAMO you cleanse your scalp of seborrhea germs.

They are gone, your head is clean, and you fancy yourself safe.

But you are not safe. The germ of seborrhea will surely return—unless you continue to use FAMO.

Once a week, or twice a week, is not enough.

Every day your head should have an application of FAMO. Every morning, as regularly and as faithfully as you brush your teeth.

You can drive the seborrhea germ out of your hair with FAMO.

You can keep it out by continuing the use of FAMO.

FAMO is sold at all toilet goods counters, in two sizes—\$1 and 35 cents.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhean excretion forms in scales or flakes and is commonly known as dandruff.

WHAT UNCLE JOE CANNON HAS TO SAY ABOUT GOV- ERNMENT EXPENDI- TURES.

"I am thankful that the sun and moon
Are both hung up so high
That no pretentious hand can stretch
And pull them from the sky.
If they were not I have no doubt
But some reforming ass
Would recommend to take them down
And light the world with gas."

The above may not be chaste poetry,
but is used by Hon. Joseph G. Cannon,
in his article in Harper's Magazine
for October, as illustrating a point he
was driving at, to show that many
so-called reforms are not reforms at
all, but the contrary.

Mr. Cannon is, perhaps, one of the
most remarkable men in the nation.
He will be 84 years old on the 7th of
May next, yet continues as one of our
government law makers, as he has
been for the past forty-five years.
It goes back some when we remem-
ber that he had his name on the
same ballot with Abraham Lincoln in
1860. Another remarkable thing
about him is that though a stalwart
Republican of the deepest dye, the
Democratic leaders of his district,
(Danville, Ill.) refused to name a
candidate to oppose him in 1918—
thus acknowledging they felt the
honor in having so able a Republican
in the House of Congress.

His article in Harper's is entitled
"The National Budget." The first
paragraph starts in Uncle Joe's well-
known pointed style, as follows:
"The Prodigal Son was a liberal
spender and the fatted calf was killed
to make a feast when he returned to
his father's house, but he was not
put in charge of the family purse.
That was left in control of the elder
son, who continued to work in the
field and create income." This epitomizes
the article—the difference
between the producers and the spenders
of the national wealth—or more
strictly speaking perhaps we should
say the appalling looseness with
which the national money is shoveled
out.

All revenue bills for government
expenses must originate in the House.
The Representatives are the men who
have to bear the responsibility for un-
popular taxes and of course are the
first to feel the weight of the voters'
dissatisfaction and get kicked out.

The appropriations made by Con-
gress for this fiscal year totals
FORTY-FIVE BILLIONS OF DOL-
LARS, or more than the entire dis-
bursement of the Federal Govern-
ment from the inauguration of George
Washington to the second inaugura-
tion of Woodrow Wilson—and greater
than the entire wealth of the Ameri-
can people in the census for the year
1880—or double the gold production
of the world in the 400 years since
Columbus discovered America.

Colonel Sellers was not more
optimistic about his "eye-water"
than are some of our would-be budget-
makers over their plans to make the
world good and happy by the ex-
penditure of public money and de-
velop new government functions to
sell the government payroll. A
good many camels got their noses
under the tent during the war
emergency, and they are now crowd-
ing their bodies in with an appeal to
Congress that they be consecrated as
"the government's own" to be here-
after looked upon as were the sacred
elephants of Siam.

For the first seventy-five years of
its existence the House had a budget
committee—the Committee on Ways
and Means. That committee reported
both revenue bills and appropriation
bills. It had jurisdiction over tax-
ation and expenditure, and its majority
represented the majority of the
House which represented the majority
of the country at the last pre-
ceding election.

The responsibility was centered in
one committee which might well have
been called a budget committee, and
that plan prevailed until after the
Civil War. Then the House created a

Committee on Appropriations to con-
sider the details of estimates from
the executive department, while the
Committee on Ways and Means con-
tinued to report tax bills; but the two
committees worked together balanc-
ing appropriations and revenues.

This plan of having two committees
handle the government budget con-
tinued for twenty years and the an-
nual appropriations were kept below
\$400,000,000, notwithstanding the
debts of the Civil War, paying the
interest on the public debt, and re-
ducing the principal by one-half.
Then in 1885 there came the change
by distributing the appropriation
bills to half a dozen committees,
to develop new government policies on
appropriation bills that had to be
passed to prevent the government
from embarrassment.

We have only one executive elected
by the people and responsible to
them. That is the President, but he
has half a million people in the civil
service under him—it was nearly 2
million during the war with Germany,
and we are having some difficulty in
securing consent of the executive
departments for its reduction to the
pre-war figures of 500,000. Creat-
ing offices is the easiest thing in the
world; abolishing offices is the hard-
est thing in the world.

With the railroads under govern-
ment control, there are 2,000,000
more people added to the civil list,
and with the telegraph and telephone
employees added, the civil-service
army has been almost as large as the
military forces put into the field for
the war with Germany. This great
aggregation may be, and often is
directed by the heads of the execu-
tive departments to bring pressure
on Congress for new and extra-
ordinary appropriations and the
initiation of new policies. The dis-
tribution of the appropriation bills
in the House helps the departments
to bring pressure on the special
committees having jurisdiction, and
when they fail with one committee
to try another.

We have given so much latitude to
the departments that they now pre-
sume to prepare legislation and insist
on its adoption by Congress without
amendment of any kind; and, having
prepared such legislation, they some-
times interpret it in administration
in a way that surprises even the
members or committees who reported
and defended it on the floor.

None of these executive officials
are responsible to the people or can
be called to account by the voters.
They are appointed by the President
or by the heads of departments or

selected by the Civil Service Com-
mission, and when they make mistakes
in recommending and preparing
legislation which Congress adopts
Congress alone is held responsible.

I believe that the House of Repre-
sentatives should have one commit-
tee with jurisdiction over appropria-
tions, and that the House should
stand firmly for its budget, because
it is the one branch of Congress to
which the Constitution committed this
responsibility and the one which the
people hold responsible for the budget,
which includes taxation as well as
expenditure.

HALLIE Q. BROWN IS HOME AFTER A 1,200 MILE TRIP

Miss Hallie Q. Brown has recently
returned from a trip of three months
through the north and northwest,
covering nearly 1,200 miles during the
itinerary. She was especially inter-
ested in the National Glacier Park—
the states of Montana, Arizona, Idaho,
Washington, Oregon and California.
These states with their wonderful
natural resources, the big timber, the
snow, great mountain ranges and
rivers, tipped peaks, the delightful cli-
mate, the rare fruits and flowers—

That's why it is so important to
to check the growth that is form-

difficult breathing, and summer

of it is yet to come if you neglect

all these coupled with the open-
handed hospitality of the people
makes this one of the most remark-
able, and, but for one incident, the
most delightful tours of her life.

While in Portland, Oregon, Miss
Brown sustained a painful accident
when boarding one of the city street
cars. This is proving more serious
than was at first supposed.

She began her work at Wilberforce
College in September and hoped to
continue it during the year. Owing to
her condition this is impossible and
she is forced to give up all pro-
fessional activities.

Miss Brown has under her tuition
about 200 students, in English Litera-
ture and Public Speaking, who deeply
regret losing her valuable instruction.
She has also cancelled a number of
engagements, for the coming season
on the lecture platform to the great
disappointment of the public.

It is earnestly hoped by many
friends and admirers that Miss Hal-
lie's retirement from active service
may prove only temporary.

HEADACHE Caused by Acid-Stomach

Yes, indeed, more often than you think.
Because ACID-STOMACH, starting with in-
digestion, heart burn, belching, food-repea-
ting, bloating and gas, if not checked, will eventually
affect every vital organ of the body.
Severe, blinding, splitting headaches are,
therefore, of frequent occurrence as a result
of this up set condition.

Take EATONIC. It quickly banishes acid-
stomach with its sour bloating, pain and gas.
It aids digestion—helps the stomach get
full strength from every mouthful of food
you eat. Millions of people are miserable,
weak, sick and ailing because of ACID-
STOMACH. Poisons, created by partly di-
gested food charged with acid, are absorbed
into the blood and distributed throughout the
entire system. This often causes rheumatism,
biliousness, cirrhosis of the liver, heart trouble,
ulcers and even cancer of the stomach. It
robs its victims of their health, undermines
the strength of the most vigorous.

If you want to get back your physical and
mental strength—be full of vim and vigor—
enjoy life and be happy, you must get rid of
your acid-stomach.

In EATONIC you will find the very help
you need and it's guaranteed. So get a big
box from your druggist today. If it
fails to please you, return it and he will re-
fund your money.

CAMEL cigarettes win smokers from
the start because the expertly blended
choice Turkish and choice Domestic to-
baccos make the Camel's delightful
mellow-mildness that all-there "body."

Camels meet your fondest cigarette fancies
in so many ways. Their flavor is unusual
and refreshing; and, they permit you to
smoke as long as you will without any
unpleasant cigarette aftertaste or unpleas-
ant cigarette odor. They're simply a ciga-
rette delight! That's the way you'll put it!

You'll find Camels good all the way
through. It is a fact, you'll prefer Camels
expert blend of choice Turkish and choice
Domestic tobaccos to either kind of tobacco
smoked straight! And, Camels may be
smoked liberally without tiring your taste.

To know Camels best compare them in
every possible test with any cigarette in
the world at any price!

18 cents a package

Camels are sold everywhere in scien-
tifically sealed packages, or ten pack-
ages (200 cigarettes) in a glassine-
paper-covered carton. We strongly
recommend this carton for the home
or office supply or when you travel.

FARM BUREAU TOUR PLANS ABOUT COMPLETE

County Agent Prince is fast getting plans laid for the big live stock tour

which is to be held on October 21 and 22.

Tuesday the first day of the tour was planned and all the farmers on the route visited.

The men whose farms are to be visited are being asked to have their live stock near the buildings at that time so that the tourists can easily see it. And though this is a sight-seeing trip, each farmer will be asked to say a few words to explain any questions which may arise about his flock or herd.

Representations of the leading farm papers which come to our homes have signified their intentions of making this tour with us. The Farm Bureau is hoping that this tour will give the county the proper impetus to get the county back on the live stock map as it used to be.

Women are expected to go on this tour and there will be many things of interest to them on the route. Picnic lunches will be enjoyed both days at scheduled places.

Remembering the Boys.

A friend of mine performed a wedding ceremony for a young couple in our home town after which the bridegroom took all the money out of his pocket, which was 75 cents, and turned to my friend, the minister, and said: "I will have to keep 50 cents of this to buy cigars for the boys," and handed him the 25 cents for the fee.—Chicago Tribune.

BELLBROOK

Harry Watson, after a pleasant two weeks' visit with relatives in Greene, Warren and Montgomery counties, returned to his home in Detroit, Wednesday.

A. R. Howland, James Crowl, Dr. Hook, F. W. Dinwiddie, Glenn Hess, Charles and John Cramer, Carroll Barnard and Wilton St. John saw the Red's Waterloo, "The White Sox" Wednesday.

A number from here enjoyed the first game of the series played on The News and Herald "Ball players" at Dayton, Wednesday.

The local telephone girls were agreeably surprised by a substantial raise in their pay this week.

W. S. Hodges was able to sit up a few days of the past week.

Charles Kilian is able to be out again following a few days' confinement to the house on account of injuries sustained in a fall from a tobacco shed last week.

George Kinder is delivering his crop of late roasting ears in the Dayton market.

The quail games at Schantz's store are being enjoyed by good sized crowds each evening of the week.

Because of the fact that W. S. Hodges will be unable to continue in business on account of failing health, his entire stock of goods, consisting of general merchandise, is being closed out at greatly reduced prices.

John Underwood, who was taken ill suddenly one day last week, is reported slightly better.

While wielding a stake-knife in an unscientific manner at his meat store Thursday, Orville Berryhill stabbed himself in the hand inflicting a painful wound.

Mr. and Mrs. Ohmer Howland, of Dayton, and Mr. Howland's father and mother, Mr. and Mrs. A. R. Howland, of the village, attended a family gathering at the home of Mr. and Mrs. John DeVoe, in Lumberton, Sunday.

HENRY SCHREIBER

Henry W. Schreiber is a native of Ohio, having been born in Cleveland on July 12, 1893. He opened the season of 1913 with Duluth and finished with St. Paul. The next spring he went with the White Sox and was farmed out to Lincoln, where he played for two years. In 1917 started with Lawrence, but was secured by the Braves. Later that season he went in the army and saw eighteen months of active service. This spring he was playing with Waterbury when the Reds bought him.

Dr. G. C. Hook and C. F. Schwartz were in Dayton on business, Thursday.

John Kable is able to walk again, after several weeks' treatment for rheumatism, at Martinsville, Ind.

A CHEERFUL HOME-COMING

Home means comfort and good cheer when there is a CALORIC FURNACE in the basement.

Your slippers, pipe, favorite reading and the CALORIC are a combination that make you forget the howling wind and drifting snow. And how the wife and children appreciate such a home—warm and comfortable in every room.

More than 50,000 satisfied users testify to the splendid success they have had with the

Original Patented Pipeless Furnace

This is the furnace which has revolutionized heating. Instead of using numerous pipes and registers, it heats the entire house through only one register. It is therefore easily installed in new or old houses, usually in one day, without interfering with your present heating arrangements.

The CALORIC heats all types of homes up to eighteen rooms, also churches, stores, factories, halls and other buildings. It burns coal, coke, wood, gas or lignite, and, because of special patented features, saves from 1/4 to 1/2 your fuel. The CALORIC is sold under the Monitor Iron-clad Guarantee, which insures the purchaser thorough and economical heat.

Certain-tee Paints and Varnishes are the highest quality and will give you the best results and most economical results.

Certain-tee Products Corporation
Offices and Warehouses in Principal Cities

Certain-tee Roofing is easily and quickly laid by anyone who will follow the directions that come with the roll. It costs less than the ordinary kind of roofing—and lasts much longer. It sturdily stands against sparks—a real fire protection. It cannot corrode or rust. For your buildings new or old—large or small—in the city or country—Certain-tee is the logical roofing investment.

On every sort of building it is turning back rain and snow, heat and cold, year after year, with almost no up-keep cost. Severest weather cannot affect it.

On buildings with broad roof areas, on soaring sky-scrapers, and all kinds of farm buildings, Certain-tee Roofing is giving lasting and complete weather protection.

For every use.

YOUNG SOLDIER IS GIVEN WELCOME TO HOME BY FRIENDS

After having been eighteen months overseas, with the First Division, in three of the fiercest battles of the war, and having been gassed and temporarily blinded, Clayton Shaw, son of Mr. and Mrs. James Shaw, of Alpha, has returned home. His sight is now fully restored.

Seventy-five people were invited to the home of Mr. and Mrs. Charles Voorhees, on the Alpha Road, Sunday to greet the young man who lately arrived from overseas. His parents assisted Mr. and Mrs. Voorhees in the entertaining.

It had been arranged to have picnic dinner and supper served in the grove on the Voorhees farm, but rain spoiled the plans, and the meals were served within doors. Seventy five people were present, and they greatly enjoyed meeting the young man, and hearing his story of his experiences overseas.

People from a distance attending the reunion were: Mrs. Golda Layburn, Mr. and Mrs. Walter Kelly and children, Jesse Young, Arthur Brady, Clyde Hammer, Mr. and Mrs. Mark John, Miss Helen John, Lynn and De Witt Young, of Middletown; Mr. and Mrs. Carl Shaw, Mr. and Mrs. Guy Geiger and children, of Dayton; Dr. and Mrs. Hook, of Bellbrook and Mr. and Mrs. Mark Bitner and children, of Yellow Springs.

BIG MAGAZINES ARE SUSPENDED IN THESE DAYS

New York, October 6.—Refusal of employers in 250 local printing establishments which publish virtually all the trade journals and magazines is sued here to grant a weekly increase of \$14 in all wage scales and a 44-hour week, yesterday, resulted in a simultaneous "lockout" and "strike," forcing 10,000 union printers out of work.

John Adams Thayer, executive secretary of the Periodical Publishers' association, has announced the list of periodicals of national circulation which have suspended publication to join in the lockout. They include Collier's, Christian Herald, Metropolitan, Current Opinion, Good Housekeeping, Harper's Bazaar, Hearst's House and Garden, Independent, McCall's, McClure's, Cosmopolitan, Outlook, People's Home Journal, Pictorial Review, Theater, The Day, Housewife, Vanity Fair, Vogue, Woman's World, Delineator, Everybody's, Home Sector and Designer, as well as many publications issued by the Frank A. Munsey company.

CHAS. F. ANDERSON DIES IN CINCINNATI

Charles F. Anderson, former Xenian, and son of the late Benjamin Diekey Anderson, died Sunday afternoon at his home in Cincinnati, according to word which has been received here. He had been an invalid for some time.

Mr. Anderson was born in Xenia and spent his early life here. He married Miss Elizabeth Hamill of this city, who survives him with one son, Gaylord. For many years he was a photographer in Cincinnati. He leaves one brother, William of Dayton, and a sister, Mrs. Henry Anderson of Los Angeles.

The body will be brought to Xenia for interment in Woodland cemetery reaching here at 10:45 Tuesday forenoon.

XENIANS WED AT SIMPLE SERVICE IN SPRINGFIELD

Miss Amy Louis Kump, younger daughter of Mr. and Mrs. Madison Kump, became the bride of J. Agnew DeHaven Saturday afternoon, the service being read at 3 o'clock by the Rev. Charles Byrer, rector of the East High street Episcopal church, Springfield, at the home of Mr. and Mrs. Charles Armstrong, brother-in-law and sister of the bride, Pleasant street and Lowrey avenue.

The bride was very beautiful in a handsome tailored suit of navy blue, with georgette blouse in the same shade, and wearing a hat to match. She wore a corsage bouquet of Ophelia roses. A two course luncheon was served following the service, and at 5:20 Mr. and Mrs. DeHaven left Springfield for the east on a two weeks honeymoon trip. They will be at home in apartments at the DeHaven home on West Market street this city.

Mrs. DeHaven, an unusually lovely girl, has been one of the favorites of the younger society folks in the city. Mr. DeHaven is connected with The Eavey Company as a traveling salesman. He is one of the city's popular young men, and the only child of Dr. A. D. DeHaven.

Following their marriage service, the infant daughter of Mr. and Mrs. Armstrong was christened by the Rev. Mr. Byrer, the child being given the name, Dorothy Jean.

Mandeville's Giraffe. Sir John Mandeville, in his "Travels," gives this description of a giraffe, which he calls "Girafant" or "Oranias": "A beast spotted, and that is a little more high than a steed, but he hath a neck twenty cubits long, and he may look over a great high house."

WOMAN SO ILL COULD NOT WALK

Lydia E. Pinkham's Vegetable Compound Restored Her to Health.

Perth Amboy, N.J. — "For three years I suffered with a severe female trouble, was nervous, had backache and a pain in my side most of the time. I had dizzy spells and was often so faint I could not walk across the floor. The doctor said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in my newspaper, and tried it. Now I am better, feel strong, have no pains, backache or dizzy spells. Every one tells me how well I look, and I tell them to use Lydia E. Pinkham's Vegetable Compound — that is what makes me feel well and look well. I recommended it to my sister and she is using it now. You can use this letter if you wish, for it is certainly a grand remedy for a woman's ills." — Mrs. MARTHA STANISLAWSKI, 524 Penn St., Perth Amboy, N.J.

For forty years Lydia E. Pinkham's Vegetable Compound has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

Big Lot of Hay Fever Jokes

But Kentucky Man Says—People Who Belong to Hay Fever Colony are Kidding Themselves.

Wouldn't Be Any Rose or Hay Fever if Simple Home Remedy Was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy, and the cost not worth mentioning."

"The annual crop of hay-fever jokes would get an ounce of Mentholized Arcline and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer."

"Many of my hay-fever friends tell me that by starting to gargle and sniff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcline say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren Is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence. You can have nerves of steel, firm step, new courage and keep mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

UNEASINESS IS CAUSED BY THE HOT WEATHER

The continued unseasonably hot weather is causing much uneasiness to farmers, who are anxious to sow their wheat but afraid to do so because of danger of its being infected by the fly.

The official seeding date was set for September 28, at which time it was reasonable to suppose that there would have been frost sufficient to kill the developed fly, and weather cool enough to prevent further development of the insect. County Agent Ford Prince says that many farmers are going ahead with their wheat sowing, hopeful that the next few days will bring frosts. The heat now is causing the fly to emerge from its chrysalis form, which is known as the "flaxseed" stage, because of the resemblance of the covering of the insect to a flaxseed. The matured fly will lay its eggs on any wheat that is up, and therein lies the danger.

In spite of the dryness of the soil, all wheat sown is germinating, and will be up in time for the attacks of the fly should not the hoped for cooler weather come. The life of the wheat fly is from three to five days.

County Agent Prince has a fly incubator in his office for the purpose of watching the progress of the insect. Every day insects are emerging from the "flaxseed" stage in the incubator.

REDS ARE WINNING AND XENIA IS JOYOUS

Is Xenia with the Reds? It is fan when he asks the score over the old telephone bells in the office of the Gazette and Republican ringing like the elevator signals in a busy department store.

It is easy to get a line on the fans when he asks the score over the phone. The fact that the Reds are ahead always brings forth an exclamation of joy. Invariably they show their joy in their voice.

Only one White Sox fan made himself known. He was gleeful only on Friday when the Sox turned back the Reds for the first time in the series.

EAST END NEWS

Mr. James Corbin and wife, of Dayton, were the Sunday guests of his parents, Mr. and Mrs. Nelson Corbin.

Dr. T. H. Jackman preached a very able sermon at St. John's A. M. E. church Sunday morning. His text was taken from Isaiah 42 chapter 4 verse. It was a discussion of the present conditions of unrest and the seeming lack of Divine regulation. The sermon was teeming with optimism and encouragement and it was a strong plea for right thinking under any and all circumstances. Those who heard him were very much benefited and encouraged.

Mrs. Emma Robinson, of Seattle, Wash., and Mrs. Rhoda Ferguson, of Dayton, are staking off the ground for a two thousand dollar residence on their lot on East Church street. It is to be modern in every particular and will be occupied by them as a residence.

Dr. E. L. Gilliam delivered a forceful and convincing lecture on temperance last night at Zion Baptist church. A good crowd was in attendance. This proposition has grown rapidly in popularity in this section of our city in the last few months and there seems to be no doubt of a large support of that issue this fall.

Peters Bros., who have been operating a dry cleaning store on Green street for a number of years, are moving today to their new quarters in Mrs. Amanda Evans store room on E. Main street. This room has been remodeled inside and out and will be a very convenient location for this business. With the use of their new Ford machine they will be better able to serve their large trade in the future than they have in the past.

"Pape's Diapepsin" instantly Ends Indigestion, Sourness, Stomach Acidity

Are lumps of undigested food causing you pain? Is your stomach acid, gassy, sour, or have you flatulence, heartburn? Then take Pape's Diapepsin.

Just as soon as you eat a tablet or two of Pape's Diapepsin all that dyspepsia, indigestion and stomach distress caused by acidity ends. These pleasant, harmless, tablets of Pape's Diapepsin never fail to make sick, upset stomachs feel fine at once, and they cost very little at drug stores.

Resinol does wonders for sick skins

That itching, burning skin-trouble which keeps you scratching and digging, is a source of embarrassment, as well as of torment to you. Why don't you get rid of it by using Resinol Ointment? Physicians prescribe it constantly. In most cases, it stops itching instantly and heals eruptions promptly. It is very easy and economical to use.

Sold by all druggists. Resinol Ointment should usually be used by Resinol Soap.

World's Greatest Invention

New IDEAL-Arcola Radiator-Boiler

Puts IDEAL HOT WATER HEATING comfort at low cost in cottages, flats, or stores, with or without cellars.

The IDEAL-Arcola takes the place of a parlor stove. But a stove wastes much of its heat up the chimney, whereas the IDEAL-Arcola is water-jacketed, and conveys its heat by hot water circulation through pipe-connected AMERICAN Radiators stationed in the adjoining rooms. Every bit of the big volume of heat developed from each pound of fuel is therefore made useful in keeping ALL the rooms uniformly, healthfully warm. There is no coal-waste. The IDEAL-Arcola does not rust out or wear out—will outlast the building—is a genuine, permanent investment!

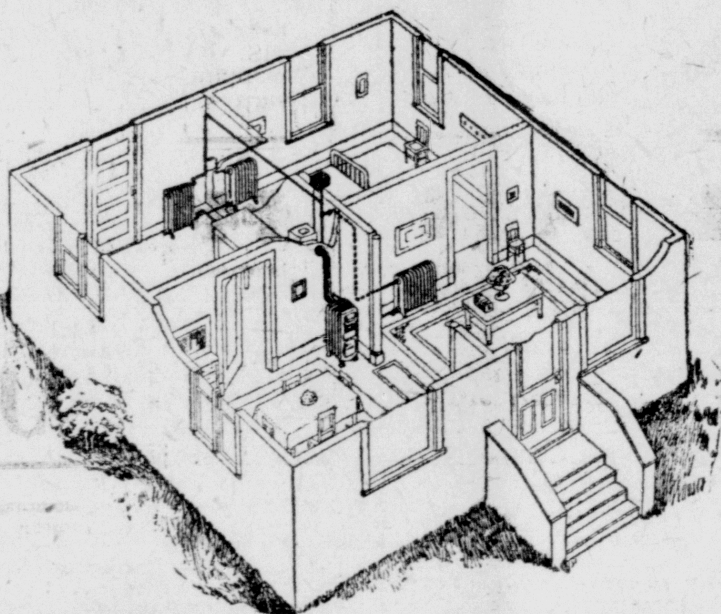

Shipped complete ready for immediate operation

The beauty of the IDEAL-Arcola method is that no cellar is needed. Everything is on one floor. The Arcola is placed in any room that has a chimney connection. No running to cellar. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms.

Cleanly heating—healthful heating—free from fire risk!

Unlike stoves, there is no coal-gas leaks into the living-rooms. The IDEAL-Arcola delivers the soft, radiant warmth of hot water—not the dry, burnt-out atmosphere of stove heating. There is no fire-risk to building—no danger to children—fire lasts for hours! The Arcola burns hard or soft coal, coke, gas, or wood. Brings cost of heating down to the lowest notch—and gives IDEAL comfort.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Write today.

FANS DELIGHTED WITH RING'S WIN

The confidence that the struggling White Sox acquired after winning Friday's game, and the belief they no doubt had that Moran's right handers would not be effective against them, must have been given a rude setback when Jimmy Ring turned them back with three hits and a shutout Saturday afternoon.

There wasn't anything that could have done the fans more good than to see Unlucky Jimmy come through with that win. There wasn't a bug who watched the score this season, who wasn't with the faithful right-handers, from the jump and every fan felt bad himself, whenever old John Fate stepped in and deprived Jimmy of a victory. For in the games heretofore Ring managed to acquire the title of champion hard-luck hurler of the two big circuits. Therefore it was with profound joy that the bugs watched Jimmy turn in a masterful article of twirling Saturday and see the Reds, backing him with faultless support in the pinches, at the same time step out and get the runs that the youngster needed.

Cicotte who pleaded with Gleason to be allowed to start again pitched an excellent game of baseball, permitting only five hits, and it must have been extremely humiliating to Gleason's ace to lose two games in the series, after Dicky Kerr, the kid of the pitching staff, had turned in a win.

With Sunday's rain spoiling the third Chicago game, it is estimated that thousands of fans who had anticipated seeing the game Sunday were disappointed because they cannot go to Monday's game. It was expected 40,000 fans would see Sunday's game.

The fifth game of the series will see Williams and probably "Hod" Eller, Moran's hitherto unworked shine-ball artist as contenders on the hill top. In their old moments the noble athletes are figuring up their hoped for shares in the world series gate. Boosting the price of seats this year has smashed all records. The daily aver-

age is around the \$1,000 mark—and the boys share in the spoils from the first five combats.

Despite the fact that a certain portion of the player's share goes to members of non-pennant winning clubs there'll be enough left for the world's series performers to keep a whole pack of wolves from the family threshold.

The record players share is slightly beyond \$4,000—the portion drawn by the 1912 Red Sox. This year the winners will get approximately \$5,000 each, while the losers should take into themselves no less than \$3,500 if the present gate ratio is maintained.

"And that's quite a flock of shekels even for world's series entertainers."

WANDERLUST LANDS BELLBROOK GIRLS IN HANDS OF SHERIFF

Mabel Webb, 16, and her thirteen year old cousin, Dorothy Webb, of friend, and the boys went to work.

Bellbrook, were having the time of their young lives Saturday night when they were arrested by Deputy Sheriff George A. Birch at the National Military Home, where they were "doing" the amusements, in the company of two youths.

Mabel and Dorothy ran away from their homes last Friday night, and walked to Spring Valley, where they hired a taxi driver to take them to Dayton, and with the purpose of seeing the world set forth on their journey. They had no money to pay the taxi man when they reached Dayton, after he had deposited them at the address they gave, the Windsor Hotel, 122 East Second street. The girls decided they would wait there for John Pence, Dorothy's youthful sweetheart, who lives at the Windsor. Not being notified of the arrival of the girls, it was 11 o'clock before young Pence and a companion put in an appearance. They paid the waiting taxi driver \$5, and he left the girls in their company.

The girls told the sheriff that with the two young men they roamed the streets until 5 o'clock in the morning when the girls went to the home of a friend, and the boys went to work.

Saturday night there was another "big date," which was interrupted by the appearance of the deputy sheriff and a deputy from the Montgomery county sheriff's office.

"Come on girls, we've a warrant for your arrest," said Mr. Birch.

"All right, laughed the girls, we'd just as soon go with you as anybody."

All the way to Xenia they laughed and had a hilarious time, and their merriment continued after they were locked up. The time for their hearing in juvenile court has not been set.

Mr. and Mrs. Mac Webb are the parents of Dorothy and Mabel. The daughter of Mr. and Mrs. Robert Webb. After the disappearance of the girls, letters were found written to Dorothy by John Pence, in which there were fervid protestations of love. It was suspected that the girls had gone to join the man, and all Saturday afternoon, Sheriff Funderburg and Deputy Sheriff Birch, put in getting on the trail of the girls. Deputy Sheriff Birch made another trip to Dayton Saturday night when the children were located. There is no charge against the boys who were with them.

SEN. HARDING WILL SEEK RE-ELECTION

Columbus, O., Oct. 6.—That he is not a candidate for any other office but that he will seek re-election to the United States senate, "provided the Republicans of Ohio think well enough of me," is the attitude of Senator Warren G. Harding, contained in a letter written to Col. D. W. Wood, Mount Vernon, who wrote to the senator approving his stand on the league of nations covenant.

"EVERYTHING IS CHANGED AT OUR HOUSE" HE SAYS

the Credit for Blessings Received

This statement recently was made to Springfield's Nerv-Worth druggist:

The Troupe Drug Co.—My wife was in a terribly run down condition. Very nervous and could not sleep. Would have the genuine "blues" and worried and fretted about everything. Had a tired and listless feeling and no nerve strength. Her appetite was very bad. Would not eat enough to sustain her. Digestion in bad shape. Had severe headaches.

She purchased two bottles of Nerv-Worth and took their contents regularly and now everything is changed at our house. She is rid of all her nervous troubles and has gained in strength and is a well woman again. Nothing worries her now. She went to Columbus to the G. A. R. convention and came back feeling fine. That gave me added faith in the merits of Nerv-Worth.

ENGLISH STRIKERS RETURN

London, Oct. 6.—With the same astonishing suddenness which marked the beginning of their strike nine days ago, the railway men returned to work today.

Industrial England breathes free again after a week's effort to tie up industry including miners and transport workers paralyzing the country. The truce which was negotiated by Premier Lloyd George and a group of conservative labor leaders late Sunday provides that there shall be a final settlement by October 21 and there shall be no reduction of railway men's wages before Sept. 30, 1920.

The men receive the guarantee from the government that no railway workers are to receive less than \$12.50 weekly instead of the pre-war wage, so long as the cost of living is not less than 110 per cent above the pre-war level.

Transportation is slowly becoming normal, but it will require several days to untangle all of the traffic dislocations.

James Kibble, chairman of the Glasgow strike committee, characterized the outcome as a moral victory for the men.

Business losses from the strike are put at \$250,000,000.

Approximately 600,000 railway workers were on strike. But in addition thousands of others employed in coal mines and industrial plants had been thrown into idleness by the tie-up.

NO KING FOR HER. WANTS AMERICAN

New York, Oct. 6.—"Jack" (listed in the Almanac De Gotha as King Alexander of Greece) is good company and a fine young man, but when Miss Josephine Marie Kelly of Chicago, married, the bridegroom is going to be an American.

Miss Kelly, a Red Cross worker, who arrived on the liner President Wilson, thus set at rest the cable rumor that she had won the heart of the young ruler of the Hellenes. Miss Kelly admitted that she was a friend of "Jack's" as she called the king, but that was as far as it went.

RABID RABBI.
New York, Oct. 6.—Rabbi Stephen S. Wise of the Free Synagogue, who bitterly attacked Elbert H. Gary, and other associates in the United States Steel Corporation as "among the most prolific breeders of Bolshevism," during the course of two sermons on the steel strike on Sunday, declared today that if necessary, he is ready to go to Pittsburgh and deliver the same address.

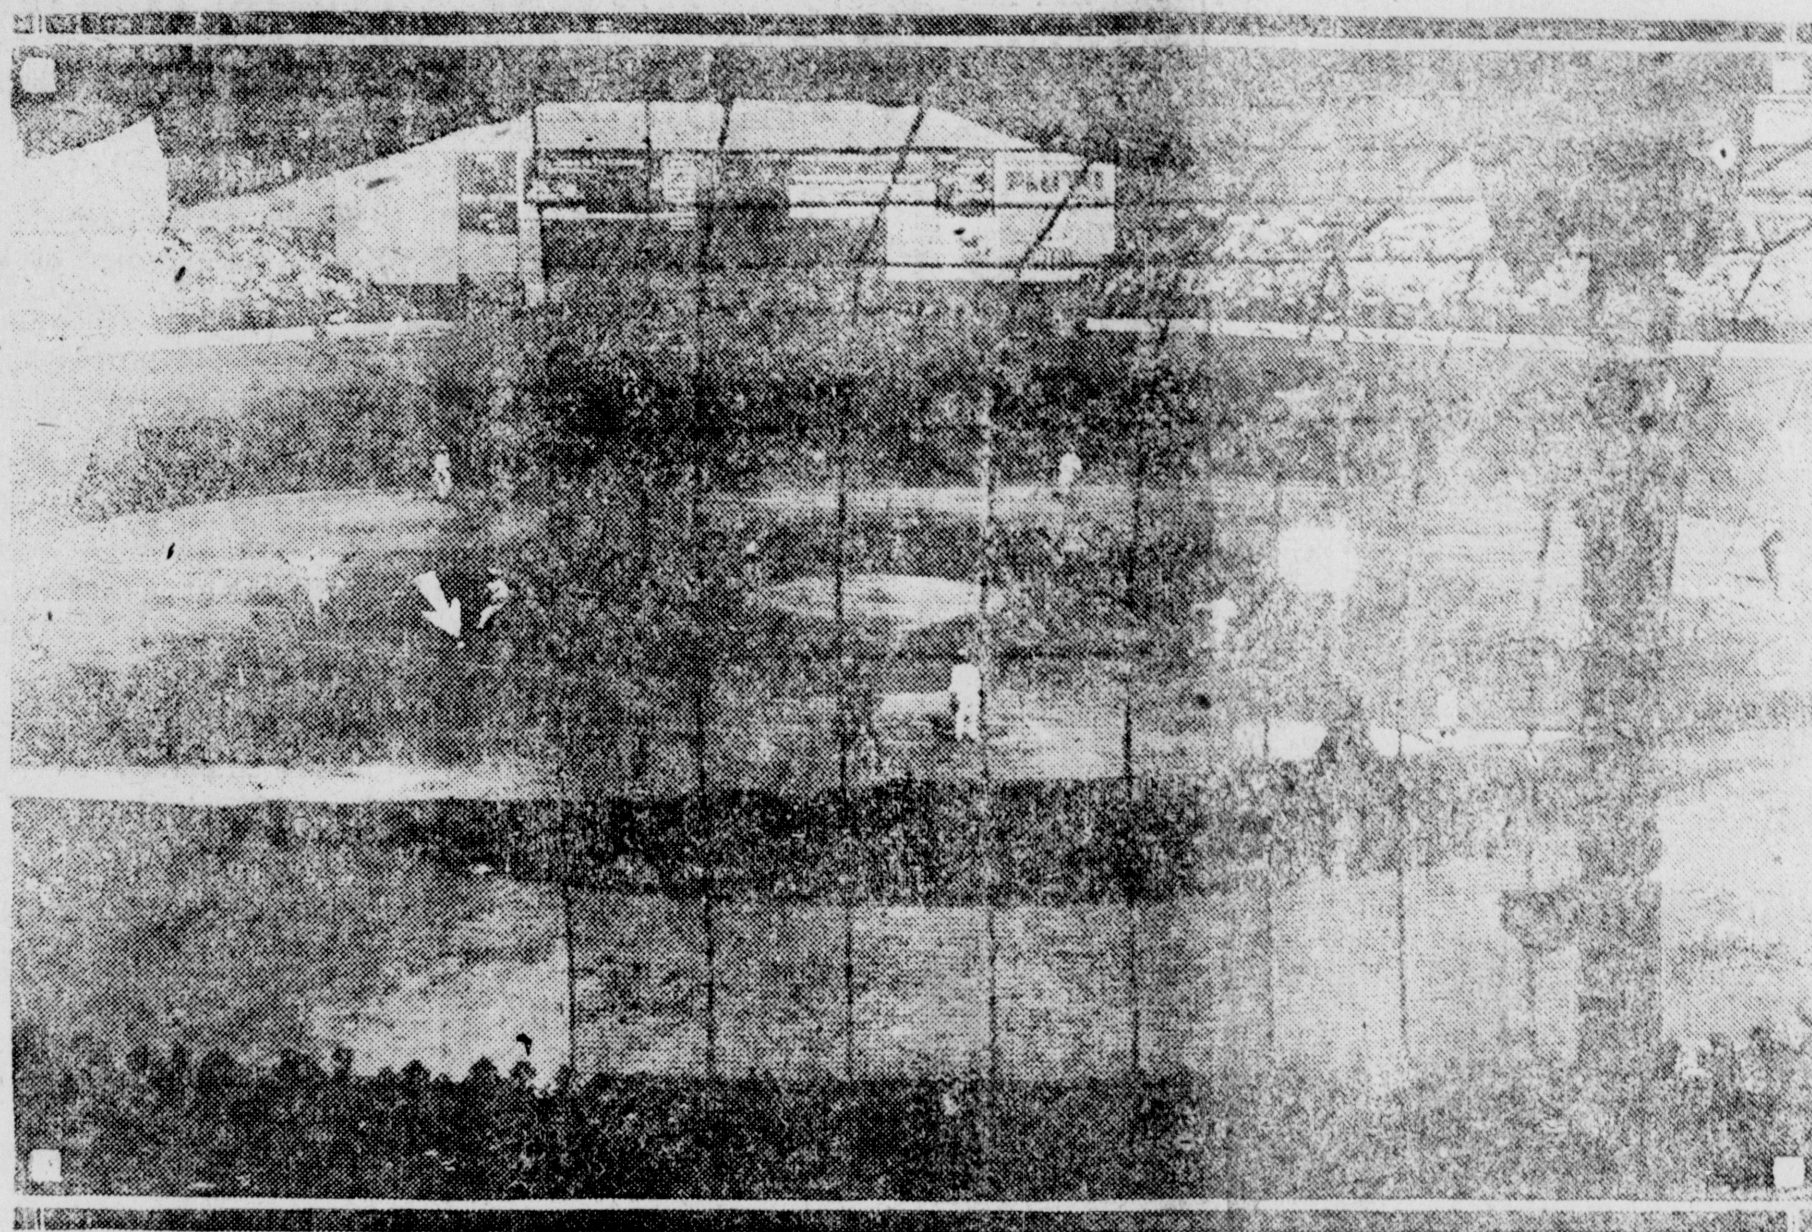

MRS. WILLIAM B. LEEDS MAY RETURN TO AMERICA.

Mrs. William B. Leeds

Mrs. William B. Leeds, widow of W. B. Leeds, known as the "tinplate king," and who came in for all of it's millions, will return to the United States shortly, according to a report from London. Mrs. Leeds has been abroad so long that she is practically listed among American expatriates. Rumors of Mrs. Leeds' engagement to prominent European nobles have reached this country at different times, but nothing ever came of them. Her magnificent villa at Newport has been closed for several years, much to the disappointment of the colonists there, as it is one of the handsomest and most extensive abodes in the famous social colony.

G. M. PETERS IS DEAD AT HOME IN CINCINNATI

Gershon Moore Peters, former president of The King Powder Company, and founder of The Peters Cartridge Company, died at 4 o'clock Sunday afternoon at his home on Luray avenue, Walnut Hills, Cincinnati. Death was due to paralysis by which he was stricken last Monday.

While not in robust health for some time, Mr. Peters spent the summer at the home of his daughter, Mrs. Otto Huffman at Mt. Kisco, N. Y., and had returned home a few weeks ago.

A native of Ohio, Mr. Peters was educated for the Baptist ministry and ordained, for several years following the calling of a clergyman in New York State. While he was in the ministry he married Miss Mary King daughter of the late J. W. King, president of The King Powder Company, of this city. After a few years, he came to Xenia to assist in the management of The King Powder Company of which his father-in-law was head. He spent several years in this city, looking after the offices of the company which were located here, and went from this city to Cincinnati, about 25 years ago. He founded The Peters Cartridge Company, which has become one of the largest and wealthiest concerns of its kind in the world.

Surviving him are his widow and two children, Mrs. Otto Huffman and Mrs. Charlton Wallace, both of New York.

Funeral services will be held at the late home Tuesday at 3 o'clock. The interment will take place in the King family plot at Woodland cemetery this city. Wednesday forenoon, the body arriving in Xenia at 10:45 o'clock.

TO AMERICANIZE ALL INDUSTRIAL WORKERS IN U. S.

Washington, Oct. 6.—Immediate steps for the Americanization of all industrial workers will be one of the recommendations of the senate education and labor committee as the result of its investigation of the steel strike.

Senator Kenyon, of Iowa, chairman of the investigation committee was today planning to urge that congress take immediate steps to provide for a plan for Americanization. There is already a bill before the committee which provides for federal action to further Americanization and Senator Kenyon hoped that he would be able to speed this measure up and secure action upon it soon after the peace treaty is disposed of.

SHANTUNG CHIEF ISSUE NOW IN SENATE PEACE TREATY ARGUMENT

Washington, Oct. 6.—Shantung will be the chief issue in the peace treaty in the senate this week. The amendment is to restore to China the German concessions in the Chinese province which were seized by Japan during the war probably will be voted on either Wednesday or Thursday.

Owing to the continued opposition of the so-called "mild reservationists" on the Republican side to textual changes in the treaty even some of the amendments supporters concede that it is likely to be defeated just as were the Ball amendments last week.

Senators Borah, of Idaho, and Norris, of Nebraska, are among the Republican senators who promise fiery speeches in criticism of the

Shantung provisions of the treaty and of the action of the peace conference in admitting Japan's claim to Kiao Chau.

Senator McCumber, Republican, of North Dakota, a league of nations advocate, was scheduled to deliver an address today in opposition to the Johnson amendment to equalize the voting power of the United States and the British empire in the League of Nations assembly. McCumber, an unyielding reservationist opposed to any senate action that would require resubmission of the treaty, or adoption of textual amendments, declared he would take issue with Senator Hiram Johnson, progressive Republican of California, on the necessity of the amendment, of which Johnson is the author.

RACE RIOT

Helena, Ark., Oct. 6.—The situation throughout Phillips county where race riots have continued intermittently for the past four days, was reported "quiet" by military authorities today.

Small squads of soldiers and volunteer citizens organizations continued to search the district for rioters and while several arrests were made during Sunday and last night no clashes were reported.

According to information in the hands of the "committee of seven," appointed by civil authorities to investigate the negro uprising which resulted in the death of 24 persons during the past four days, the negroes had planned a general uprising today.

F. M. DEEDS HAS NARROW ESCAPE FROM DEATH

Youngstown, Oct. 4.—F. M. Deeds piloting a Curtis aeroplane and Leonard Hayes, a passenger had a narrow escape from death late this morning when the plane in which they were flying crashed to earth at the Poland country club. Deeds sustained a broken nose and Hayes a fractured leg. It may develop that they have suffered internal injuries.

The plane had just "hopped off" for a flight to Erie, Pa., when the engine stalled at a height of about 250 feet, the machine going into a nose spin. The men were pinned beneath the wreckage, but were quickly extricated and rushed to the Youngstown hospital.

EVERYBODY'S DO IT.

Washington, Oct. 6.—The whole country is prescribing for the president. Every White House mail for the past few days has been loaded, not only with prescriptions from physicians, but with nostrums which have cured the senders.

HELL OF FIRE IS THING OF PAST

Columbus, O., Oct. 6.—Speaking on "What has become of hell?" Dr. E. L. Rexford, pastor of All Souls church said:

"The traditional hell of fire in some other world has gone out of existence."

Dr. Rexford traced the beliefs in difficult sorts of hells from beginning of time on down and said it is his opinion that the best belief is that of today that "remorse of conscience instead of physical burnings will constitute hell."

Dr. C. R. Havighurst, at First Methodist Church declared that from personal contact, he knows that German today is in the hands of a theists.

WAR ON RATS

London, Oct. 6.—Amidst the upheaval of industrial unrest and the political agitations over peace problems, the British government has found time to declare war on rats. The board of trade has designated October 20-27 as "national rat week," when the people are urged to undertake an offensive campaign to exterminate the rodents.

AMERICAN STEAMER CALLS FOR HELP

Boston, Oct. 6.—A radio call for help sent out by the American steamer Lake Gradet, Portland, Maine, for Fowey, England, has been received at the navy yard. The vessel is in peril in mid-Atlantic, 300 miles from New Foundland, and is encountering heavy seas with only three days coal supply in her bunkers. The coast guard cutter Androsroggin today is crossing the vicinity of the Lake Gradet and probably will reach her in time.

COMMITTEE WILL MOVE TO PITTSBURGH

Washington, Oct. 6.—The senate committee investigating the steel strike has voted definitely to carry its investigation to the Pittsburgh district. Senator Kenyon, of Iowa chairman of the committee announced today. Senator Kenyon stated today that as yet he has been unable to determine when the committee will go as the entire matter hinges upon the treaty situation in the senate.

SPRING VALLEY COMPANY IS SOLD

The Spring Valley Mercantile Co., has disposed of its business to W. H. Eikenberry, of Marion, Ind., who will take personal charge of the extensive interests of the firm.

Mr. Eikenberry becomes owner of the hardware and implement, lumber, coal, cement and lime business. The mercantile company retains ownership of The Spring Valley Flouring Mills, which it has been operating several years.

Members of the company which made the sale are T. M. Scarff, E. M. Spitzer, John Spitzer and T. F. Weller.

John E. Clark of Marion, is taking charge of the business for Mr. Eikenberry until he personally assumes management of the industry. T. F. Weller will continue with the firm for a time.

ELIMINATED.

Cleveland, Oct. 6.—Because the "second mortgage broker" adds from \$500 to \$600 to the cost of an \$8,000 house, and is a "business" factor in building operations, Charles Smith, business agent of the Cleveland Building Trades Council, announced today that all workmen have been withdrawn from jobs in which these brokers have figured. According to Smith the brokers referred to are a by-product of the war and operate by bringing prospective builders in touch with money lenders taking a commission for the service. Legitimate second mortgage companies have also declared war on the "loan middleman," declaring them as unnecessary factor.

STEEL PLANTS SLOWLY RESUMING OPERATIONS, AMERICANS RETURNING

Pittsburgh, Oct. 6.—Steel plants in the Pittsburgh district that have been closed since the beginning of the nation wide strike two weeks ago threw open their gates today and attempted to resume operations. Early reports from different sections said that workmen returned in large numbers.

One of the three great blast furnaces of the United States Corporation at Clairton which have been 'down' was blown in today. Four large mills in Donora and Monessen, which had been closed tight by the strike, started this morning. Officials

expected that at least 60 per cent of their employees would return.

The Carnegie Steel Company reported that the largest force since the beginning of the strike reported for duty on the night shift at its different plants in the district last night.

"Every American reported for work today," an official of one of the four plants to start said today.

The strikers committee was marking time today. Activity at headquarters apparently was restrained by the presence in Washington of all the leaders who will confer tonight with the executive committee of the American Federation of Labor over ways and means of conducting the strike.

EMPLOYEE AT THE O. S. & S. O. HOME IS FOUND DEAD

Believed to have been dead since Saturday evening, the body of Albert C. Gundlach, 62 years old, assistant painter at the O. S. and S. O. Home, was found at the rear of the chapel on the Home grounds at 10:30 Sunday morning. Dr. Leroy Haines, who viewed the body at the office of Undertaker R. M. Neeld, gave it as his opinion that cerebral hemorrhage was the cause of death.

Mr. Gundlach had been complaining for several days of not feeling well. He went off duty Saturday morning for the weekly half holiday, and came to this city. He was not seen on the Home grounds after that time. The man came to this city from North Lewisburg, Champaign county last April, and had been employed at the Home ever since. He was quiet and industrious. So far as is known he has no relatives. He was a native of New York, but spent much of his life roving over the country, according to the story he had told people who were associated with him at the Home.

A brief funeral service will be held Tuesday at 2 o'clock at the Neeld undertaking parlors. Burial in Woodland cemetery.

FAMOUS PRISON WARDEN DEAD

Glenn Falls, N. Y., Oct. 6.—Wm. J. Homer, warden of Great Meadow prison at Comstock, is dead after being stricken Saturday night just after delivering an address to the inmates of the prison, assembled to celebrate Yom Kippur, the Jewish holiday. Warden Homer's method of dealing with prisoners made him famous. Convicts were put upon their honor, wards were unarmed. Humane treatment was the rule. Chain gangs were abolished. Few prisoners ever tried to escape, although they were allowed to work on the prison farm where there was opportunity to take "French leave" if they chose.

His home was in Elmira, N. Y., where he was born fifty years ago. Before Gov. Dix appointed him head of Great Meadow in 1911 he was a broker and railroad transportation employee. He leaves a wife and married daughter.

PRICES OF BARBER WORK HAVE STARTED SOARING

Prices of practically all barber work went up Monday morning as the result of shop owners in Xenia complying with the demands filed by barbers here last week.

Starting Monday morning, shaves went from 15 to 20 cents, hair cuts from 35 to 40 cents, shampoos from 25 to 35 cents, massages from 25 to 35 cents and hair singes from 25 to 35 cents. Tonics remain stationary at 25 cents.

The other demand of the barbers for shorter hours also went into effect and shops will from now on open at 7:30 o'clock in the morning instead of 7 and close at 7 o'clock in the evening instead of 8. This will be the schedule through the week and on Saturdays the shops will open at 7:30 in the morning and close at ten in the evening instead of 11.

The other demand of the barbers for a raise in commissions from 25 per cent to 70 per cent, was compromised by the barbers and the shop owners. The scale was raised from \$30 to \$40, and the barbers will hereafter receive a commission of 66 2/3 per cent over that amount instead of 65 per cent as in the past. The barbers are satisfied with this action of the shop owners in complying with their demands so far.

PRESIDENT IS HOLDING HIS OWN

Washington, Oct. 6.—After a satisfactory night, President Wilson today continued to hold the improvement that was noted in his condition yesterday.

This was the gist of the bulletin on the president's condition that was issued at the White House at 11:30 by Read Admiral Grayson, his personal physician, Dr. Ruffin of Washington, Mrs. Wilson's family physician and Rear Admiral E. R. Stitt, head of the naval medical college.

The president, it was learned at the White House today, has fretted considerably over the industrial conference which opened this afternoon. When the call for the conference was issued the president had expected to open it himself and through his personal efforts break down a great deal of the distrust with which leaders of capital and labor are viewing each others.

Another conference of the physicians attending the president was scheduled for today. Dr. Grayson, Dr. Ruffin and Rear Admiral Stitt, U. S. N. will attend.

ITALY MAY RATIFY PEACE TREATY

Paris, Oct. 6.—King Victor Emmanuel of Italy, may ratify the peace treaty by royal decree today, says Homme Libre, Premier Clemenceau's newspaper, The Italian parliament is not in session.

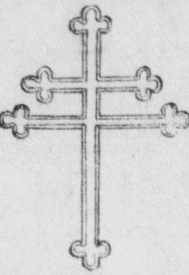

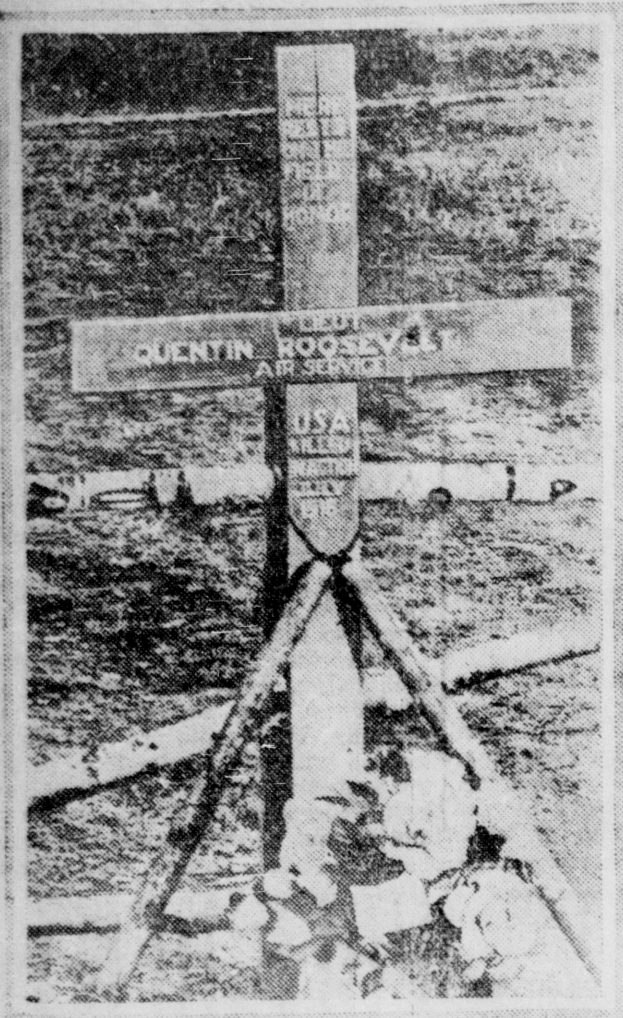

This newspaper believes that ratification by three powers, necessary to make the treaty effective will have been accomplished by October 12. Great Britain has already ratified the treaty and the Anglo-French-American Pact. The French senate and President Poincare probably will give their approval this week while immediate action by the Italian king is expected.

BRIEVING FRENCH MADAME CARES FOR QUENTIN'S GRAVE.

Bleak elements and an aged French woman guard one of America's sleeping martyrs.

Madame Marchand, a wrinkled-faced, toothless old French woman, has taken it upon herself to tend the grave of Lieutenant Quentin Roosevelt, which lies at the edge of the war-battered village of Chamey, France, according to a report received here. Two or three times a week the aged woman hobbles from her home, a quarter of a mile away, and places a handful of flowers against the wooden cross at the head of the grave. Two of her own sons have been killed in the war. To the grave of one who fell at Chateau-Thierry she makes a pilgrimage every few weeks. Her other boy fell in the fighting on the Somme and lies in an unmarked grave. So the old lady has vowed to care for the grave of this American boy who died so far from home.

ENTIRE FAMILY OF FIVE ARE KILLED AT GRADE CROSSING

Dayton, Oct. 5.—A family of five was wiped out at the Ohio Electric crossing of the Valley pike, just west of Donnelsville, at 8:45 o'clock yesterday morning, when a Springfield-bound traction car from Dayton crashed into an automobile, bearing an Illinois license number 371,575. As identified from a card in the man's pocket the victims are H.C. Cree, 40, of Springfield, Ill., his wife and three children. The man and woman were about 45 years of age and the children about 3, 4 and 7. The automobile was demolished and in the wreckage was the body of a dog, evidently the pet of the children. Bits of surplus clothing, food and a bag of apples and potatoes, together with cooking utensils scattered in the wreckage indicated the family had been camping along the route. A Chambersburg, Pa., pennant was on the car. Just a few minutes before Cree drove across the Ohio Electric tracks which cross the pike diagonally, a trolley car had passed on its way west from Springfield to Dayton. The trolley car which ran into his automobile was running at a high rate of speed, it is said, and struck the automobile practically in the center, their being nothing left of the machine but broken parts, the

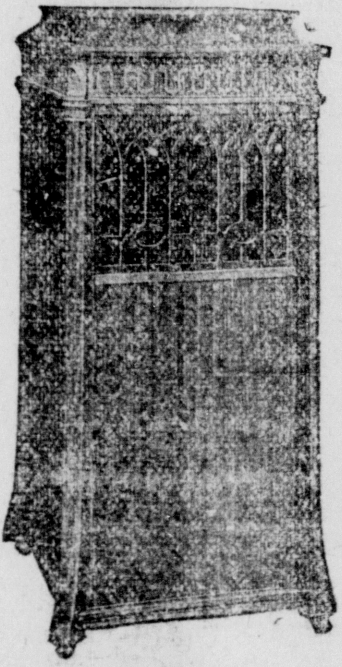

tires being torn from the wheels, and one of them thrown some distance into a field.

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F.M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color. These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 10c and 25c.

Constipation

THERE IS NOTHING equal to Chamberlain's Tablets for constipation. When the proper dose is taken their action is so agreeable and so natural that you do not realize that it is the effect of a medicine. These tablets possess tonic properties that aid in establishing a natural and regular action of the bowels. Chamberlain's Tablets have cured many cases of chronic constipation.

SANDRA THE JEALOUS

BY JANE PHELPS.

CHAPTER LXXXV.

Leola's Temperamental Letters. As I fingered over the package I slipped out the thin envelopes and laid aside the fat ones which promised more exciting reading. Then I hurriedly ran through those that promised little. Invitations, regrets, openings of fashionable milliners and dressmakers—all the inconsequential things that go to make up the day's mail of a woman socially prominent. These finished I compared the dates on the envelopes of the thick and promising letters and selecting that most remote, I drew out the closest written pages. After a few tense moments I read: "Dearest Everett: It was heavenly to be with you last evening. Tonight I am alone and the thought of you keeps me happy. My soul dear Everett has one great faculty—that of loving you. And all mine is yours. Often you may doubt it, this wilful nature of mine often will not be kept within bounds. But that is only casual. It is the other my love for you, that counts. You swore you never had, never could love another. I should die did you love another while I was living; and even heaven would be hell if after I was gone you gave what belongs to me through eternity—your love. "I have asked myself a hundred times what I have done to merit such supreme happiness? If you only knew, Dear Heart, how I pray to become the angelic being you think me, am so far from perfect, Dear. My temperament, my pride will, I fear, give you many a sad hour—me, many a desperate one. But if love can make one over, then shall I be a different Leola—for your sake. "Thank you for the roses. I did not put them in water and so preserve them. I heard them close my heart until they were all wilted and roting. "I shall see you this evening. Until then know that I am thinking only to you, my Love—Leola." I read the letter through to the end, an icy hand at my throat, my heart aching. So even before they were married, Leola had known she possessed all that Everett had to give of himself, of love. How she must have loved him, to write like that! It seemed almost sacrilege to me. She had said that "even heaven would be hell," if he loved another, save anyone the love that belonged to her. "What a loving passionate letter it was. Yet as I re-read it, I realized that she was conscious of her own weakness. She had feared that her pride, her peculiar temperament would give them unhappiness—as I knew it had from what I had learned of their life together. "Who but one with just such a nature would hold roses until they drooped and faded instead of putting them in water to preserve them? I knew I never would even think of such a thing. Yet in a way, I sensed how such a confession would appeal to a man who was in love. "Why am I such a practical creature?" I asked as I dashed the tears from my eyes—angry tears that I could not make myself—more like Leola. Then half laughing, half crying, I added: "I should have put them in water, cut the stems, and probably on the second day have put all in the vase to preserve them as long as I could. After a bit I drew out the next letter: "My Own: I am sorry I was so naughty. I longed even while being disagreeable to throw my arms about your neck and tell you how I loved you and ask you to forgive me. But

this terrible pride, this contrary nature, would not allow me. I feel like saying what Prosper Merimee did in his 'Letters to an Unknown'—you recall he said: You will never know all the good or all the evil there is in me. I have spent my life being praised for qualities which I have not and being calumniated for faults which are not mine. It has always been so ever since I was a little girl in pig-tails and pinafores. I am afraid it always will be, although for your sake I shall strive desperately to overcome the faults. "After you left me, Dear, I gathered all the roses from where I had so spitefully thrown them, and gave you them, those red, red roses you love them, those red, red roses you love or bring me. Do Dear, come early tomorrow. I shall be unhappy until you take me in your arms and tell me that you forgive me and love me not as much but more than before. Your naught Leola." "I never can be like her, never, never!" I exclaimed vehemently as I finished this second letter. "There's no use to try!" And because I could not be like the first wife of whom I was so jealous I wept bitterly. Then I laid the letters away under another time. I could read no more of them.

XENIA HIGH LOSES TO WASHINGTON C. H.

It was a mighty busy afternoon at the football yard Saturday, when some twenty-two athletes collided in a super-exhibition of the grand old game, Washington High School's eleven, topping the score over Xenia High School 13 to 6.

Some fifty minutes of slashing, nerve-racking, heart rending, football, with Coach Faires' charges fighting an upgrade battle from the sound of the whistle, made of the fracas the most exciting and interesting from the point of the sidelines that has graced the dust-laden turf of old Roberts' oblong for to this many a day.

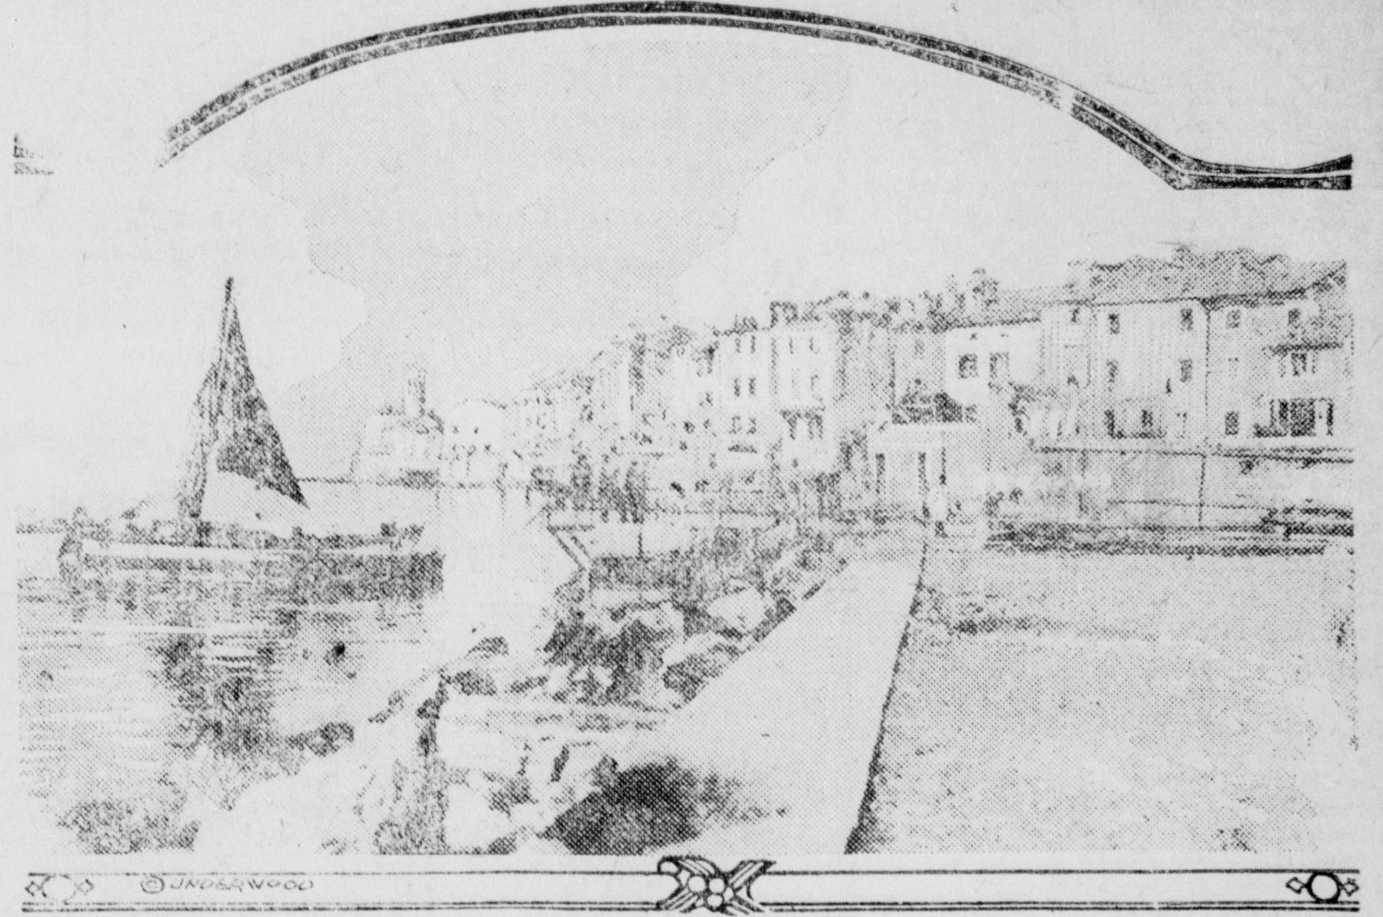

Playing a game and scrappy article of the pigskin sport, yet Xenia High School's still-unexperienced squad was out-classed by the heavier and more aggressive following of Coach Moorehead from the Fayette county capitol and only the bitterest kind of defensive play, kept the score from going higher.

With a number of last year's men in the line-up, Washington's organization of tired warriors gained more ground than the locals and the remarkable punting of Bales, of Xenia, was a big factor in keeping the pellet out of dangerous territory. The first quarter was a see-saw, with the visitors, having a little the best of the argument, but with the quarter ending no score.

When Washington intercepted a blue and white pass in the second quarter, the tide of battle turned. After an irresistible march to the goal line on straight bucks, Rogers, veteran quarterback of the Washington outfit toted the leather over for a touchdown. Weaver kicked goal.

The half ended with the score standing thus, and some several hundred sideline rooters howling themselves hoarse for a reversal of attack on the part of the locals. It was with the intention of "opening up" that Faires' favorites took the fields at the start of the second half. When Walker Taylor recovered one of Bales' punts on Xenia's 45 yard line, the locals began the offensive that resulted in their only score. Knee was on the receiving end of a pass that netted 15 yards and LeSourd dived for ten more. After losing the ball on a fumble, Taylor

CO-PARTNER ATTRACTIONS presents
The Greatest Melodrama of the Year

VIRTUOUS MEN

Starring
E.K. LINCOLN

Supported by Such Notables as
Grace Darling, Clara Joel, Robert Cummings, Irving Brooks and Other Notables

"Virtuous Men" was directed personally by Ralph Ince, responsible for the biggest screen successes of the past few years.

It stars E. K. Lincoln, one of the most popular film favorites of the motion picture public.

The production was eleven months in the making—cost over \$150,000 to produce.

"Virtuous Men" abounds in spectacular scenes, magnificent sets, tremendous climaxes and real thrills.

Among the outstanding features which make "Virtuous Men" the great melodrama of the year are scenes in which 10,000 supernumeraries actually appear, a tremendous forest fire, a Society Ball, of gorgeousness and beauty, the most realistic and terrific hand to hand fight ever witnessed.

The ball room scenes are the most pretentious and magnificent ever filmed. Beautiful women, exquisite gowns, rare jewels and massive settings make these scenes one of the finest spectacles ever seen on the screen.

Suspense, action, beauty and finely played drama—all these have their share in making "Virtuous Men" the great melodrama of the year.

Famo Is a Medicine

Your Hair Needs it Daily

FAMO should be used as you use your tooth paste—every morning. You use FAMO to kill seborrhea, just as you cleanse your teeth to ward off pyorrhea.

One is just as persistent, just as deadly in its effects, as the other—pyorrhea killing the teeth and seborrhea destroying the hair.

The action of FAMO is medicinal because it is a medicine—a medicine for the scalp and hair.

To be sure, one application of FAMO does frequently—almost always, in fact—clear the head of the deadly seborrhea germ.

So does a good medicated tooth paste cleanse the mouth.

But, skip a single day with the tooth-brush, and what happens?

Germ begin again to work on your teeth.

The same process applies to the hair. With FAMO you cleanse your scalp of seborrhea germs.

They are gone, your head is clean, and you fancy yourself safe.

But you are not safe. The germ of seborrhea will surely return—unless you continue to use FAMO.

Once a week, or twice a week, is not enough.

Every day your head should have an application of FAMO. Every morning, as regularly and as faithfully as you brush your teeth.

You can drive the seborrhea germ out of your hair with FAMO.

You can keep it out by continuing the use of FAMO.

FAMO is sold at all toilet goods counters, in two sizes—\$1 and 35 cents.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhean excretion forms in scales or flakes and is commonly known as dandruff.

WHAT THINKS JOE CANNON HAS TO SAY ABOUT GOV- ERNMENT EXPEN- DITURES.

"I am thankful that the sun and moon
Are both hung up so high
That no pretentious hand can stretch
And pull them from the sky.
If they were not I have no doubt
But some reforming ass
Would recommend to take them down
And light the world with gas."

The above may not be chaste poetry,
but is used by Hon. Joseph G. Cannon,
in his article in Harper's Magazine
for October, as illustrating a point he
was driving at, to show that many
so-called reforms are not reforms at
all, but the contrary.

Mr. Cannon is, perhaps, one of the
most remarkable men in the nation.
He will be 84 years old on the 7th of
May next, yet continues as one of our
government law makers, as he has
been for the past forty-five years.
It goes back some when we remem-
ber that he had his name on the
same ballot with Abraham Lincoln in
1860. Another remarkable thing
about him is that though a stalwart
Republican of the deepest dye, the
Democratic leaders of his district,
(Danville, Ill.) refused to name a
candidate to oppose him in 1918—
thus acknowledging they felt the
honor in having so able a Republican
in the House of Congress.

His article in Harper's is entitled
"The National Budget." The first
paragraph starts in Uncle Joe's well-
known pointed style, as follows:
"The Prodigal Son was a liberal
spender and the fatted calf was killed
to make a feast when he returned to
his father's house, but he was not
put in charge of the family purse.
That was left in control of the elder
son, who continued to work in the
field and create income." This epitomizes
the article—the difference
between the producers and the spenders
of the national wealth—or more
strictly speaking perhaps we should
say the appalling looseness with
which the national money is shovelled
out.

All revenue bills for government
expenses must originate in the House.
The Representatives are the men who
have to bear the responsibility for un-
popular taxes and of course are the
first to feel the weight of the voters'
dissatisfaction and get kicked out.
The appropriations made by Con-
gress for this fiscal year totals
FORTY-FIVE BILLIONS OF DOL-
LARS, or more than the entire dis-
bursements of the Federal Govern-
ment from the inauguration of George
Washington to the second inaugura-
tion of Woodrow Wilson—and greater
than the entire wealth of the Ameri-
can people in the census for the year
1890—or double the gold production
of the world in the 490 years since
Columbus discovered America.

Colonel Sellers was not more
optimistic about his "eye-water"
than are some of our would-be budget-
makers over their plans to make the
world good and happy by the ex-
penditure of public money and de-
velop new government functions to
swell the government pay-roll. A
good many camels got their noses
under the tent during the war
emergency, and they are now growl-
ing their bodies in with an appeal to
Congress that they be consecrated as
"the government's own" to be here-
after looked upon as were the sacred
elephants of Siam.

For the first seventy-five years of
its existence the House had a budget
committee—the Committee on Ways
and Means. That committee reported
both revenue bills and appropriation
bills. It had jurisdiction over tax-
ation and expenditure, and its majority
represented the majority of the
House which represented the majority
of the country at the last pre-
ceding election.

The responsibility was centered in
one committee which might well have
been called a budget committee, and
that plan prevailed until after the
Civil War. Then the House created a

Committee on Appropriations to con-
sider the details of estimates from
the executive department, while the
Committee on Ways and Means contin-
ued to report tax bills; but the two
committees worked together balanc-
ing appropriations and revenues.
This plan of having two committees
handle the government budget contin-
ued for twenty years and the an-
nual appropriations were kept below
\$400,000,000, notwithstanding the
debts of the Civil War, paying the
interest on the public debt, and re-
ducing the principal by one-half.
Then in 1885 there came the change
by distributing the appropriation
bills to half a dozen committees,
to develop new government policies on
appropriation bills that had to be
passed to prevent the government
from embarrassment.

We have only one executive elected
by the people and responsible to
them. That is the President, but he
has half a million people in the civil
service under him—it was nearly a
million during the war with Germany,
and we are having some difficulty in
securing consent of the executive
departments for its reduction to the
pre-war figures of 500,000. Creat-
ing offices is the easiest thing in the
world; abolishing offices is the hard-
est thing in the world.

With the railroads under govern-
ment control, there are 2,000,000
more people added to the civil list,
and with the telegraph and telephone
employees added, the civil-service
army has been almost as large as the
military forces put into the field for
the war with Germany. This great
aggregation may be, and often is
directed by the heads of the execu-
tive departments to bring pressure
on Congress for new and extra-
ordinary appropriations and the
initiation of new policies. The dis-
tribution of the appropriation bills
in the House helps the departments
to bring pressure on the special
committees having jurisdiction, and
when they fail with one committee
to try another.

We have given so much latitude
to the departments that they now pre-
sume to prepare legislation and insist
on its adoption by Congress without
amendment of any kind; and, having
prepared such legislation, they some-
times interpret it in administration
in a way that surprises even the
members of committees who reported
and defended it on the floor.

None of these executive officials
are responsible to the people or can
be called to account by the voters.
They are appointed by the President
or by the heads of departments or

Quickly Eased By Penetrating
Hamlin's Wizard Oil

A safe and harmless preparation
to relieve the pains of Rheumatism,
Sciatica, Lame Back and Lumbago is
Hamlin's Wizard Oil. It penetrates
quickly, drives out soreness, and lim-
bers up stiff aching joints and muscles.

You will find almost daily uses for
it in cases of sudden mishaps or ac-
cidents such as sprains, bruises, cuts,
burns, bites and stings. Just as re-
liable for earache, toothache,
croup and colic.

Get it from druggists for 30 cents.

selected by the Civil Service Com-
mission, and when they make mistakes
in recommending and preparing
legislation which Congress adopts
Congress alone is held responsible.

I believe that the House of Repre-
sentatives should have one commit-
tee with jurisdiction over appropria-
tions, and that the House should
stand firmly for its budget, because
it is the one branch of Congress to
which the Constitution committed this
responsibility and the one which the
people hold responsible for the budget,
which includes taxation as well as
expenditure.

HALLIE Q. BROWN IS HOME AFTER A 1,200 MILE TRIP

Miss Hallie Q. Brown has recently
returned from a trip of three months
through the north and northwest,
covering nearly 1,200 miles during the
itinerary. She was especially inter-
ested in the National Glacier Park—
the states of Montana, Arizona, Idaho,
Washington, Oregon and California.
These states with their wonderful
natural resources, the big timber, the
rivers, great mountain ranges and
snow tipped peaks, the delightful cli-
mate, the rare fruits and flowers—

Now Is a Good Time To Drive Out Catarrh

The Trouble Is in the Blood.
Summer catarrh, with its nausea-
ous discharge, stuffed up glands,
greater power during the winter.
That's why it is so important to
check the growth that is form-
ing to attack you with ten-fold
difficult breathing, and summer
colds, is bad enough, but the worst
of it is yet to come if you neglect

all these coupled with the open-
handed hospitality of the people
makes this one of the most remark-
able, and, but for one incident, the
most delightful tours of her life.

While in Portland, Oregon, Miss
Brown sustained a painful accident
when boarding one of the city street
cars. This is proving more serious
than was at first supposed.

She began her work at Wilberforce
College in September and hoped to
continue it during the year. Owing to
her condition this is impossible and
she is forced to give up all pro-
fessional activities.

Miss Brown has under her tuition
about 200 students, in English Litera-
ture and Public Speaking, who deeply
regret losing her valuable instruction.
She has also cancelled a number of
engagements, for the coming season
on the lecture platform to the great
disappointment of the public.

It is earnestly hoped by many
friends and admirers that Miss Hal-
lie's retirement from active service
may prove only temporary.

PARTY GIVEN ON HIS 83RD BIRTHDAY

A pleasant time was enjoyed last
Thursday at the country home of
Raymond Hopping near Spring Val-
ley, when in a quiet way was cele-
brated the birthday of his father,
W. H. Hopping, who will be eighty-
three years old October 5th. There
were present Raymond Hopping and
his wife and three children, Mrs.

Jennette Kilian, of Dayton, also his
brother, D. R. Hopping and wife of
this city, and two sisters, Mrs. J. G.
Eull and Julia F. Hopping of Toledo,
Iowa. These four brothers and sis-
ters had not all been together for
twenty-four years and it was a happy
reunion enjoyed by all. A bounteous
repast was served at the noon hour.

Optimistic Thought.
Time is a better comforter than re-
flection.

HEADACHE Caused by Acid-Stomach

Yes, indeed, more often than you think.
Because ACID-STOMACH, starting with in-
digestion, heart burn, belching, food-repea-
ting, bloating and gas, if not checked, will eventually
affect every vital organ of the body.
Severe, blinding, splitting headaches are,
therefore, of frequent occurrence as a result
of this upset condition.
Take EATONIC. It quickly banishes acid-
stomach with its sour bloating, pain and gas.
It aids digestion—helps the stomach get
full strength from every mouthful of food
you eat. Millions of people are miserable,
weak, sick and ailing because of ACID-
STOMACH. Poisons, created by partly di-
gested food charged with acid, are absorbed
into the blood and distributed throughout the
entire system. This often causes rheumatism,
biliousness, cirrhosis of the liver, heart trouble,
ulcers and even cancer of the stomach. It
robs its victims of their health, undermines
the strength of the most vigorous.

If you want to get back your physical and
mental strength—be full of vim and vigor—
enjoy life and be happy, you must get rid of
your acid-stomach.
In EATONIC you will find the very help
you need and it's guaranteed. So get a big
box from your druggist today. If it
fails to please you, return it and he will re-
fund your money.

Camel Cigarettes

CAMEL cigarettes win smokers from
the start because the expertly blended
choice Turkish and choice Domestic to-
baccos make the Camel's delightful
mellow-mildness that all-there "body."

Camels meet your fondest cigarette fancies
in so many ways. Their flavor is unusual
and refreshing; and, they permit you to
smoke as long as you will without any
unpleasant cigarette aftertaste or unpleas-
ant cigarette odor. They're simply a ciga-
rette delight! That's the way you'll put it!

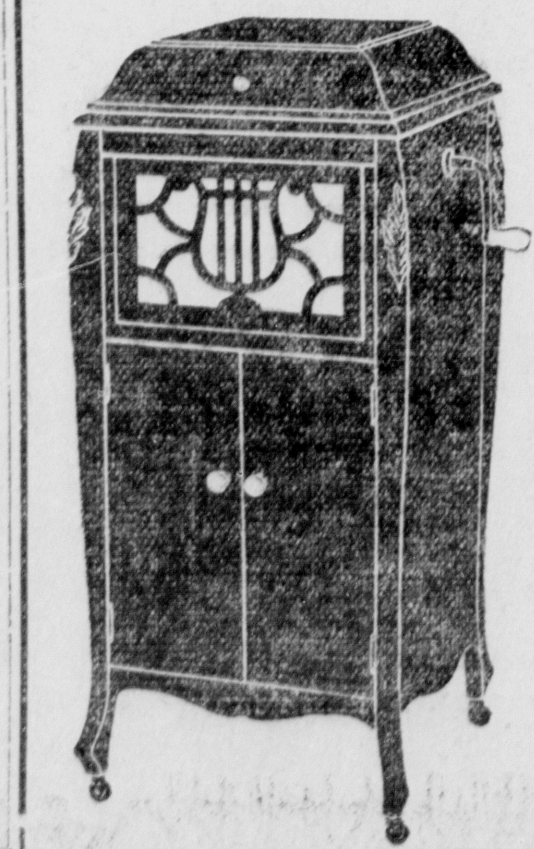

You'll find Camels good all the way
through. It is a fact, you'll prefer Camels
expert blend of choice Turkish and choice
Domestic tobaccos to either kind of tobacco
smoked straight! And, Camels may be
smoked liberally without tiring your taste.

To know Camels best compare them in
every possible test with any cigarette in
the world at any price!

Camels are sold everywhere in sci-
entifically sealed packages, or ten pack-
ages (200 cigarettes) in a glassine
paper-covered carton. We strongly
recommend this carton for the home
or office supply or when you travel.

FARM BUREAU TOUR PLANS ABOUT COMPLETE

County Agent Prince is fast getting plans laid for the big live stock tour

It will do you good to know that others TAKE PEPSINCO

In the sale of PEP-SINCO we know of course that advertising pays, but in this sense, it's not the advertising which we buy in this newspaper, but the advertising which satisfied users of PEP-SINCO give us through their sincere and immediate recommendation of PEP-SINCO to others. No remedy in our entire stock, for the purpose seems to give such universal satisfaction as PEP-SINCO and this, whether it is taken for simple case of gas, belching, chronic indigestion or acute dyspepsia. You can safely put your trust in PEP-SINCO complete faith that it will not fail you.

Ask your druggist—he sells and recommends Pepsinco.

which is to be held on October 21 and 22.

Tuesday the first day of the tour was planned and all the farmers on the route visited.

The men whose farms are to be visited are being asked to have their live stock near the buildings at that time so that the tourists can easily see it. And although this is a sight-seeing trip, each farmer will be asked to say a few words to explain any questions which may arise about his flock or herd.

Representations of the leading farm papers which come to our homes have signified their intentions of making this tour with us. The Farm Bureau is hoping that this tour will give the county the proper impetus to get the county back on the live stock map as it used to be.

Women are expected to go on this tour and there will be many things of interest to them on the route. Picnic lunches will be enjoyed both days at scheduled places.

Remembering the Boys.

A friend of mine performed a wedding ceremony for a young couple in our home town, after which the bridegroom took all the money out of his pocket, which was 75 cents, and turned to my friend, the minister, and said: "I will have to keep 50 cents of this to buy cigars for the boys," and handed him the 25 cents for the fee.—Chicago Tribune.

BELLBROOK

Harry Watson, after a pleasant two weeks' visit with relatives in Greene, Warren and Montgomery counties, returned to his home in Detroit, Wednesday.

A. R. Howland, James Crowl, Dr. Hook, F. W. Dinwiddie, Glenn Hess, Charles and John Cramer, Carroll Barnard and Wilton St. John saw the Red's Waterloo. "The White Sox" Wednesday.

A number from here enjoyed the first game of the series played on The News and Herald "Ball players" at Dayton, Wednesday.

The local telephone girls were agreeably surprised by a substantial raise in their pay this week.

W. S. Hodges was able to sit up a few days of the past week.

Charles Kilian is able to be out again following a few days' confinement to the house on account of injuries sustained in a fall from a tobacco shed last week.

George Kinder is delivering his crop of late roasting ears in the Dayton market.

The quiet games at Schantz's store are being enjoyed by good sized crowds each evening of the week.

Because of the fact that W. S. Hodges will be unable to continue in business on account of failing health, his entire stock of goods, consisting of general merchandise, is being closed out at greatly reduced prices.

John Underwood, who was taken ill suddenly one day last week, is reported slightly better.

While wielding a stake-knife in an unscientific manner at his meat store Thursday, Orville Berryhill stabbed himself in the hand inflicting a painful wound.

Mr. and Mrs. Ohmer Howland, of Dayton, and Mr. Howland's father and mother, Mr. and Mrs. A. R. Howland, of the village, attended a family gathering at the home of Mr. and Mrs. John DeVoe, in Lumberton, Sunday.

HENRY SCHREIBER

Henry W. Schreiber is a native of Ohio, having been born in Cleveland on July 12, 1893. He opened his season of 1913 with Duluth and finished with St. Paul. The next spring he went with the White Sox and was turned out to Lincoln, where he played for two years. In 1917 started with Lawrence, but was secured by the Braves. Later that season he went in the army and served eight months of active service. This spring he was playing with Waterbury when the Reds bought him.

Dr. G. C. Hook and C. F. Schwartz were in Dayton on business, Thursday.

John Kable is able to walk again, after several weeks' treatment for rheumatism, at Martinsville, Ind.

Quiet-Little-Dinner Note.

A minister was telling us the other day about hurrying around a hotel in Columbus with one hat on his head and another in his hand, not knowing any more than a rabbit where he got the second hat, and we told him not to mind that, as we'd often been that way in Columbus. And the good man seemed greatly comforted. A man should so live that he can do some kindly act like this every day or so.—Liberty (O.) Press.

The Xenia W. C. T. U. held its regular meeting on Friday afternoon, and it had been arranged to combine business with business by way of a play surprise on Mrs. Rachel Platt. After the ladies had assembled at Mrs. Nissen's they ended their way in a body to Mrs. Platt's home. A business meeting was first held in which the Million Year Jubilee Fund was emphasized. The election of officers of the Union was the same officers were elected. After formal adjournment a fun began. All remained to the dining room where a lovely time was had and delicious refreshments served.

—South Side W. C. T. U. will meet at the home of Mrs. Jane Curl Wednesday, October 8th at 2 p. m. a full attendance is desired as the delegates to the state convention at Columbus will be appointed.

In the fifth game of the annual inter-city baseball series between Washington C. H. and Wilmington, played at Washington Sunday, the Fayette county team defeated the Quakers 8 to 1. The count now stands two wins for each with one tie, and the final of the series will be played off next Sunday. The fans Sunday numbered 1,700.

Antioch College, which had hoped to interest its student body sufficiently in football this fall, to put a team in the field, has been unsuccessful in promoting the grid game. Only a few candidates responded to calls for practice, and a rather pretentious schedule which had been arranged has been cancelled. The school will have a basketball team in action the coming season.

Wilmington College football team was defeated by the University of Cincinnati at Cincinnati Saturday, 24-0.

YOUNG SOLDIER IS GIVEN WELCOME TO HOME BY FRIENDS

After having been eighteen months overseas, with the First Division, in three of the fiercest battles of the war, and having been gassed and temporarily blinded, Clayton Shaw, son of Mr. and Mrs. James Shaw, of Alpha, has returned home. His sight is now fully restored.

Seventy-five people were invited to the home of Mr. and Mrs. Charles Voorhees, on the Alpha Road, Sunday to greet the young man who lately arrived from overseas. His parents assisted Mr. and Mrs. Voorhees in the entertaining.

It had been arranged to have picnic dinner and supper served in the grove on the Voorhees farm, but rain spoiled the plans, and the meals were served within doors. Seventy five people were present, and they greatly enjoyed meeting the young man, and hearing his story of his experiences overseas.

People from a distance attending the reunion were: Mrs. Golda Layburn, Mr. and Mrs. Walter Kelly and children, Jesse Young, Arthur Brady, Clyde Hammer, Mr. and Mrs. Mark John, Miss Helen John, Lynn and Dewitt Young, of Middletown; Mr. and Mrs. Carl Shaw, Mr. and Mrs. Guy Geiger and children, of Dayton; Dr. and Mrs. Hook, of Bellbrook and Mr. and Mrs. Mark Bittner and children, of Yellow Springs.

BIG MAGAZINES ARE SUSPENDED

New York, October 6.—Refusal of employers in 250 local printing establishments which publish virtually all the trade journals and magazines is sued here to grant a weekly increase of \$14 in all wage scales and a 44-hour week, yesterday, resulted in a simultaneous "lockout" and "strike," forcing 10,000 union printers out of work.

John Adams Thayer, executive secretary of the Periodical Publishers' association, has announced the list of periodicals of national circulation which have suspended publication to join in the lockout. They include Collier's, Christian Herald, Metropolitan, Current Opinion, Good Housekeeping, Harper's Bazaar, Hearst's House and Garden, Independent, McCall's, McClure's, Cosmopolitan, Outlook, People's Home Journal, Pictorial Review, Theater, Tri-Week, Housewife, Vanity Fair, Vogue, Woman's World, Delineator, Everybody's, Home Sector and Designer, as well as many publications issued by the Frank A. Munsey company.

CHAS. F. ANDERSON DIES IN CINCINNATI

Charles F. Anderson, former Xenian, and son of the late Benjamin Dickey Anderson, died Sunday afternoon at his home in Cincinnati, according to word which has been received here. He had been an invalid for some time.

Mr. Anderson was born in Xenia and spent his early life here. He married Miss Elizabeth Hamill of this city, who survives him with one son, Gaylord. For many years he was a photographer in Cincinnati. He leaves one brother, William of Dayton, and a sister, Mrs. Henry Anderson of Los Angeles.

The body will be brought to Xenia for interment in Woodland cemetery reaching here at 10:45 Tuesday forenoon.

XENIANS WED AT SIMPLE SERVICE IN SPRINGFIELD

Miss Amy Louis Kump, younger daughter of Mr. and Mrs. Madison Kump, became the bride of J. Agnew DeHaven Saturday afternoon, the service being read at 3 o'clock by the Rev. Charles Byrer, rector of the East High street Episcopal church, Springfield, at the home of Mr. and Mrs. Charles Armstrong, brother-in-law and sister of the bride, Pleasant street and Lowrey avenue.

The bride was very beautiful in a handsome tailored suit of navy blue, with georgette blouse in the same shade, and wearing a hat to match. She wore a corsage bouquet of Ophelia roses. A two course luncheon was served following the service, and at 5:20 Mr. and Mrs. DeHaven left Springfield for the east on a two weeks honeymoon trip. They will be at home in apartments at the DeHaven home on West Market street this city.

Mrs. DeHaven, an unusually lovely girl, has been one of the favorites of the younger society folks in the city. Mr. DeHaven is connected with The Eavey Company as a traveling salesman. He is one of the city's popular young men, and the only child of Dr. A. D. DeHaven.

Following their marriage service, the infant daughter of Mr. and Mrs. Armstrong was christened by the Rev. Mr. Byrer, the child being given the name, Dorothy Jean.

Mandeville's Giraffe.

Sir John Mandeville, in his "Travels," gives this description of a giraffe, which he calls "Gerafantz" or "Oracles": "A beast spotted, and that is a little more high than a steed, but he hath a neck twenty cubits long, and he may look over a great high house."

WOMAN SO ILL COULD NOT WALK

Lydia E. Pinkham's Vegetable Compound Restored Her to Health.

Perth Amboy, N.J. — "For three years I suffered with a severe female trouble, was nervous, had backache and a pain in my side most of the time. I had dizzy spells and was often so faint I could not walk across the floor. The doctor said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in my newspaper, and tried it. Now I am better, feel strong, have no pains, backache or dizzy spells. Every one tells me how well I look, and I tell them to use Lydia E. Pinkham's Vegetable Compound — that is what makes me feel well and look well. I recommended it to my sister and she is using it now. You can use this letter if you wish, for it is certainly a grand remedy for a woman's ills." — Mrs. MARTHA STANISLAWSKI, 524 Penn St., Perth Amboy, N.J.

For forty years Lydia E. Pinkham's Vegetable Compound has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

World's Greatest Invention

New IDEAL-Arcola Radiator-Boiler

Puts IDEAL HOT WATER HEATING comfort at low cost in cottages, flats, or stores, with or without cellars.

The IDEAL-Arcola takes the place of a parlor stove. But a stove wastes much of its heat up the chimney, whereas the IDEAL-Arcola is water-jacketed, and conveys its heat by hot water circulation through pipe-connected AMERICAN Radiators stationed in the adjoining rooms. Every bit of the big volume of heat developed from each pound of fuel is therefore made useful in keeping ALL the rooms uniformly, healthfully warm. There is no coal-waste. The IDEAL-Arcola does not rust out or wear out—will outlast the building—is a genuine, permanent investment!

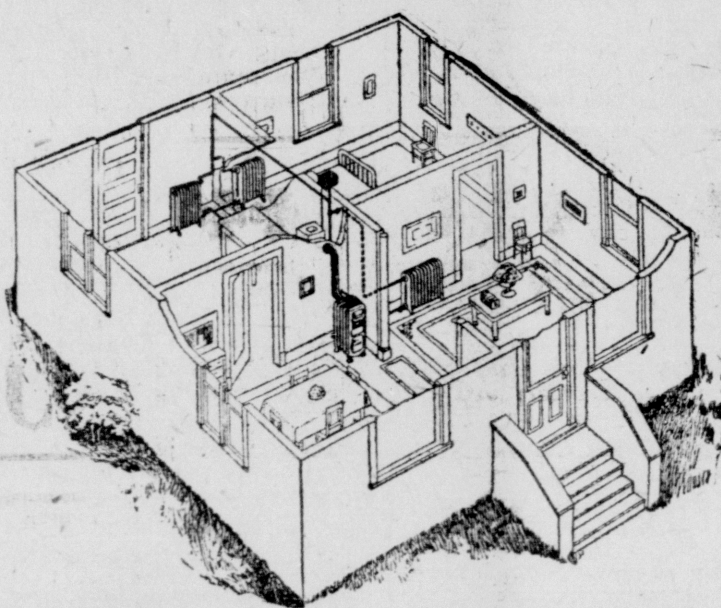

Shipped complete ready for immediate operation

The beauty of the IDEAL-Arcola method is that no cellar is needed. Everything is on one floor. The Arcola is placed in any room that has a chimney connection. No running to cellar. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms.

Cleanly heating—healthful heating—free from fire risk!

Unlike stoves, there are no coal-gas leaks into the living-rooms. The IDEAL-Arcola delivers the soft, radiant warmth of hot water—not the dry, burnt-out atmosphere of stove heating. There is no fire-risk to building—no danger to children—fire lasts for hours! The Arcola burns hard or soft coal, coke, gas, or wood. Brings cost of heating down to the lowest notch—and gives IDEAL comfort.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Write today.

SEN. HARDING WILL SEEK RE-ELECTION

Columbus, O., Oct. 6.—That he is not a candidate for any other office but that he will seek re-election to the United States senate, "provided the Republicans of Ohio think well enough of me," is the attitude of Senator Warren G. Harding, contained in a letter written to Col. D. W. Wood, Mount Vernon, who wrote to the senator approving his stand on the league of nations covenant.

"EVERYTHING IS CHANGED AT OUR HOUSE" HE SAYS

the Credit for Blessings Received

This statement recently was made to Springfield's Nerv-Worth druggist:

The Troupe Drug Co.—My wife was in a terribly run down condition. Very nervous and could not sleep. Would have the genuine "blues" and worried and fretted about everything. Had a tired and listless feeling and no nerve strength. Her appetite was very bad. Would not eat enough to sustain her. Digestion in bad shape. Had severe headaches.

She purchased two bottles of Nerv-Worth and took their contents regularly and now everything is changed at our house. She is rid of all her nervous troubles and has gained in strength and is a well woman again. Nothing worries her now. She went to Columbus to the G. A. R. convention and came back feeling fine. That gave me added faith in the merits of Nerv-Worth.

THOSE DIRE DISASTERS

Our wet friends were vociferous in proclaiming the dire disasters that would befall Cincinnati in case of prohibition. Well, we have had prohibition for three months. Where are the disasters?

BLISS NATIVE HERB TABLETS

FOR RHEUMATISM.

This painful malady is the direct result of a poisonous condition of the blood. It is caused by a disregard of that condition known as a constipation. Unless the alimentary tract is kept clean, sweet and wholesome the food ferments, decays and causes ill-health. Bliss Native Herb Tablets are nature's remedy for relieving the system of blood impurities, by maintaining a healthy condition of the liver, kidneys and bowels. A dollar box contains 200 tablets, and will last the average family six months. Be sure and get the genuine and avoid numerous imitations. Look for the money back guarantee on every box and our trade mark. Put up in 2 sizes, 50c and \$1.

Sold by leading druggists and local agents everywhere. Made by Alonzo O. Bliss Co., Washington, D. C.

FANS DELIGHTED WITH RING'S WIN

The confidence that the struggling White Sox acquired after winning Friday's game, and the belief they no doubt had that Moran's right handers would not be effective against them, must have been given a rude setback when Jimmy Ring turned them back with three hits and a shutout Saturday afternoon.

There wasn't anything that could have done the fans more good than to see Unlucky Jimmy come through with that win. There wasn't a bug who watched the score this season, who wasn't with the faithful right-handers, from the jump and every fan felt bad himself, whenever old John Fate stepped in and deprived Jimmy of a victory. For in the games heretofore Ring managed to acquire the title of champion hardluck hurler of the two big circuits. Therefore it was with profound joy that the bugs watched Jimmy turn in a masterful article of twirling Saturday and see the Reds, backing him with faultless support in the pinches, at the same time step out and get the runs that the youngster needed.

Cicotte who pleaded with Gleason to be allowed to start again pitched an excellent game of baseball, permitting only five hits, and it must have been extremely humiliating to Gleason's ace to lose two games in the series, after Dicky Kerr, the kid of the pitching staff, had turned in a win.

With Sunday's rain spoiling the third Chicago game, it is estimated that thousands of fans who had anticipated seeing the game Sunday were disappointed because they cannot go to Monday's game. It was expected 40,000 fans would see Sunday's game. The fifth game of the series will see Williams and probably "Hod" Eller, Moran's hitherto unworked shine-ball artist as contenders on the hill top.

In their odd moments the noble athletes are figuring out their hoped for shares in the world series gate. Boosting the price of seats this year has smashed all records. The daily aver-

age is around the \$1,000 mark—and the boys share in the spoils from the first five combats.

Despite the fact that a certain portion of the player's share goes to members of non-pennant winning clubs there'll be enough left for the world's series performers to keep a whole pack of wolves from the family threshold.

The record players share is slightly beyond \$4,000—the portion drawn by the 1912 Red Sox. This year the winners will get approximately \$5,000 each, while the losers should take unto themselves no less than \$3,500 if the present gate ratio is maintained.

"And that's quite a flock of shekels even for world's series entertainers."

WANDERLUST LANDS BELLBROOK GIRLS IN HANDS OF SHERIFF

Mabel Webb, 16, and her thirteen year old cousin, Dorothy Webb, of

Bellbrook, were having the time of their young lives Saturday night when they were arrested by Deputy Sheriff George A. Birch at the National Military Home, where they were "doing" the amusements, in the company of two youths.

Mabel and Dorothy ran away from their homes last Friday night, and walked to Spring Valley, where they hired a taxi driver to take them to Dayton, and with the purpose of seeing the world set forth on their journey. They had no money to pay the taxi man when they reached Dayton, after he had deposited them at the address they gave, the Windsor Hotel, 123 East Second street. The girls decided they would wait there for John Pence, Dorothy's youthful sweetheart, who lives at the Windsor. Not being notified of the arrival of the girls, it was 11 o'clock before young Pence and a companion put in an appearance. They paid the waiting taxi driver \$5; and he left the girls in their company.

The girls told the sheriff that with the two young men they roamed the streets until 5 o'clock in the morning when the girls went to the home of a friend, and the boys went to work.

Saturday night there was another "big date," which was interrupted by the appearance of the deputy sheriff and a deputy from the Montgomery county sheriff's office.

"Come on girls, we've a warrant for your arrest," said Mr. Birch.

"All right, laughed the girls, we'd just as soon go with you as anybody."

All the way to Xenia they laughed and had a hilarious time, and their merriment continued after they were locked up. The time for their hearing in juvenile court has not been set. Mr. and Mrs. Mac Webb are the parents of Dorothy and Mabel, the daughter of Mr. and Mrs. Robert Webb. After the disappearance of the girls, letters were found written to Dorothy by John Pence, in which there were fervid protestations of love. It was suspected that the girls had gone to join the man, and all Saturday afternoon, Sheriff Funderburg and Deputy Sheriff Birch put in getting on the trail of the girls. Deputy Sheriff Birch made another trip to Dayton Saturday night when the children were located. There is no charge against the boys who were with them.
